# Values

---

In keeping with our Trust vision, every member of the Trust family of schools will be valued and encouraged to fulfil their potential. In our Trust we believe:

- Everyone has something to offer
- Trust, honesty, empathy and social responsibility are the Christian values that frame our work
- We are here for the whole person, spiritually, morally, educationally and socially
- In working with transparency and openness

## Policy Statement

---

### 1 Definitions and Terminology

This is a Trust wide policy designed to cover all our schools. Since our area of operation covers more than one county when the document refers to Local Safeguarding Contacts it means the county in which the individual school operates.

In working with Child Protection Policy and Procedures the only area that is school specific and can be changed, is the signature sheet on the inside cover, which details the school's name, identified individuals and the location of records.

For the purposes of this Policy and procedures a child, young person, pupil or student is referred to as a 'child' or a 'pupil' and they are normally under 18 years of age.

Wherever the term '**parent**' is used this includes any person with parental authority over the child concerned e.g., carers, legal guardians etc.

We use the term '**victim**' to describe a child who has been affected by some type of abuse. However, we recognise that not everyone who has been subjected to abuse considers themselves a 'victim' or would want to be described in this way and as such, we will use any term with which the individual child is most comfortable.

We use the term '**alleged perpetrator(s)**' and '**perpetrator(s)**' throughout the Policy and procedures, but staff and others will be mindful about this terminology, especially when speaking in front of children not least because in some cases the abusive behaviour will have been harmful to the perpetrator as well. Language and terminology will be determined as appropriate on a case-by-case basis.

Child on child abuse may also be referred to as peer-on-peer abuse or child on child sexual violence and sexual harassment and should be taken to mean child on child abuse of any description.

The proprietor is The Good Shepherd Trust Multi Academy Trust.

Wherever the term '**school**' or '**setting**' is used this refers to our office and each of our academies and includes any wrap around care provided and delivered by that setting such as After School Clubs and Breakfast Clubs.

Throughout this document the following terminology is used to describe the roles within the Trust.

Role/Term	Alternatives, description and meaning
<b>Members</b>	Members appoint the Directors. Membership is described in the Trust's Articles of Association
<b>Directors</b>	Also 'the Trust board' or 'the board' The Trust Directors are accountable in law for all decisions about member schools and are accountable to the Secretary of State for Education for the performance of each school within the Trust.
<b>LGB</b>	Also 'Local Governing Bodies' or 'LGB Members' The local governing body is a standing committee of the Trust which has delegated powers to oversee the running of its individual school. The LGB may choose to delegate some of these powers to smaller committees or the Headteacher as it deems fit to fulfil its responsibilities. Where the document refers to the LGB this might be through some committees or further delegation but with the understanding that the ultimate responsibility remains with the LGB.
<b>CEO</b>	Chief Executive Officer A significant number of responsibilities under the scheme of delegation lie with the CEO. It is recognised that the CEO may choose to delegate some of their duties to the Chief Finance Officer and School Improvement Consultants and other staff in their team.
<b>Central Team</b>	Refers collectively to the: Business Manager, Finance Support Officers, School Improvement Consultants, Admin Support Officers and Development Officer Any other staff appropriate to the responsibility or task who work from the Trust's central administration office in Penrith rather than being based in a school.
<b>SLT</b>	Senior Leadership Team The Headteacher/Executive Headteacher, Head of School, Deputy Headteacher or other Senior staff member as appropriate to the individual school's senior leadership structure  <b>'Headteacher'</b> in policies will usually refer to the Headteacher or Executive Headteacher as appropriate for the leadership structure of the school

## 2 Introduction

All those working in education can contribute to the safeguarding and protection of the welfare of a child in need. According to the DfE, safeguarding and promoting the welfare of children is defined as:

- Providing help and support to meet the needs of children as soon as problems emerge
- protecting children from maltreatment, whether that is within or outside the home, including online
- preventing impairment of children's mental and physical health or development
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- promoting the upbringing of children with their birth parents, or otherwise their family network through a kinship care arrangement, whenever possible and where this is in the best interest of the children; and
- taking action to enable all children to have the best outcomes in line with those set out in the Children's Social Care National Framework

**Child protection is a part of safeguarding** and promoting the welfare of children. It refers to the activity that is undertaken to protect specific children who are suspected to be suffering, or are likely to suffer, significant harm. This includes harm that occurs inside or outside the home, including online.

Effective safeguarding means practitioners should understand and be sensitive to factors, including economic and social circumstances and ethnicity, which can impact children and families' lives.

Safeguarding and promoting the welfare of children is **everyone's** responsibility. **Everyone** who has contact with children and their families and carers has a role to play in safeguarding children. To fulfil this responsibility effectively, all professionals should make sure their approach is child centred. This means that they should **always** consider what is in the **best interests** of the child.

The DfE statutory guidance 'Keeping Children Safe in Education' is our first point of reference for child protection and child welfare issues across the Trust. The guidance is read and implemented by:

- Trust Directors
- Chief Executive Officer
- Local Governing Body Members
- Senior leaders in each school

Effective child protection is essential as part of wider work to safeguard and promote the welfare of children. However, all agencies and individuals should aim to proactively safeguard and promote the welfare of children so that the need for action to protect children from harm is reduced.

Children learn best when they are healthy, safe and secure, when their individual needs are met, and when they have positive relationships with the adults caring for them. It is the aim of the Trust and each of our schools to create a high-quality setting which is welcoming, safe and stimulating, and where children can enjoy and grow in confidence.

This Child Protection Policy and procedures must be read in conjunction with the **Trust's Overarching Safeguarding Statement** and other policies and procedures (See Section 6 below).

### 3 Ethos

In our Trust the health, safety and wellbeing of all our children is of paramount importance to all the adults who work or volunteer here. All our children have the right to protection, regardless of age, sex, race, ethnicity, disability, religion or belief, gender reassignment or sexual orientation/identity (protected characteristics). They have a right to be safe in our schools; this is enhanced by each school's adoption of the Trust's School Behaviour Policy and procedures which includes our procedures for preventing and dealing with cases of bullying and a robust Code of Conduct for staff and other adults who work across our Trust.

As a Trust we are also committed to establishing a safe physical environment in which children can learn and develop both personally and academically and achieve success in the following as stated in the Children Act 2004:

- Be healthy (physically, mentally and emotionally)
- Stay Safe (protection from harm and neglect)
- Enjoy and Achieve (via education, training and recreation)
- Make a positive contribution to the school community and general society
- Achieve social and economic well-being.

The Trust regards Child Protection as an essential task of **all** its staff, Local Governing Body members and visitors/volunteers who come into school. We are committed to protecting and safeguarding pupils in each school.

There is no place for extremist views of any kind in our schools, whether from internal sources – pupils, staff, visiting adults, governors etc. or external sources – school community, external agencies or individuals.

Any prejudice, discrimination or extremist views, including derogatory language, displayed by pupils, staff, visitors or parents will always be challenged and, where appropriate, dealt with. Where misconduct by a teacher is proven, the matter will be referred to the Teaching Regulation Agency (TRA) for their consideration. Misconduct by other staff will be dealt with under normal Trust disciplinary procedures.

We encourage pupils to respect the fundamental British values of democracy, the rule of law, individual liberty and mutual respect, and tolerance of those with different faiths and beliefs. We ensure that partisan political views are not promoted in the teaching of any subject and, where political issues are brought to the attention of the pupils, reasonably practicable steps are taken to offer a balanced presentation of opposing views to pupils.

The use of assembly/collective worship and other discussion times help to develop appropriate attitudes in our children and makes them aware of the impact of their decisions on others. Each school across the Trust will have their own strategies and practices which will be dependent upon the age and abilities of the children or young people in their setting.

Our schools will ensure the content of the curriculum includes social and emotional aspects of learning and that child protection is included in the curriculum (including online) to help children stay safe, recognise when they don't feel safe and identify who they might/can talk to. They will provide a curriculum that will help to equip our children with the skills they need including materials and learning experiences that will encourage them to develop essential life skills and protective behaviours. We recognise that a more personalised or contextualised approach may be required for more vulnerable children, victims of abuse and some SEND children. The PSHE (Personal, Social, Health and Economic Education) curriculum and, where relevant, Relationships Education, RSE and Health Education will include elements of how children can recognise different risks in different situations and how to behave in response. It will equip children with the skills needed to keep themselves safe and empower them to feel safe.

The Trust recognises the importance of creating and promoting a positive, supportive, neutral and secure environment where pupils can develop a sense of being valued and heard and where they feel safe, secure and respected.

We are aware that young people may be susceptible to extremist influences or prejudiced views from an early age which originate from a variety of sources and media, including via the internet, and at times pupils may themselves reflect or display views that may be discriminatory, prejudiced or extremist, including using derogatory language. It is imperative that our pupils and parents see our schools as a safe place where they can discuss and explore controversial issues safely and in an unbiased way and where our teachers and other adults encourage and facilitate this.

Where a pupil is placed with an alternative provision provider, the Trust recognises that as the host school, we remain responsible for the safeguarding of that pupil and will work closely with the alternative provision provider to ensure the needs of the pupil are appropriately met. See Section 14 of procedures below.

Every effort will be made to work in partnership with other agencies and seek to establish effective working relationships with parents and other colleagues so enabling the Board of Directors through the Local Governing Body to fulfil their duty to have arrangements about safeguarding and promoting the welfare of children introduced by the Education (Independent Schools Standards) (England) Regulations 2014 and the Safeguarding Vulnerable Groups Act 2006 (as amended by the Protection of Freedoms Act 2012) in place.

## 4 Aims

There are three main aims to our Child Protection Policy:

- |                    |  |
|--------------------|--|
| <b>Prevention:</b> | by creating a positive atmosphere and providing high quality teaching and pastoral support to pupils   |
| <b>Protection:</b> | by following agreed procedures and ensuring staff are appropriately recruited, trained and supported to respond appropriately and sensitively to Child Protection concerns |
| <b>Support:</b>    | by providing support for pupils and school staff and for children who may have been or are being abused, exploited or neglected.   |

Across the Good Shepherd Trust, we will do these things by:

- ensuring all settings practice safe recruitment in checking the suitability of adults who have unsupervised contact with children and appropriately supervising others who are temporarily in school but not undertaking 'regulated activity'
- ensuring that members of the Trust Board and Local Governing Body members have read, understood and follow the DfE statutory guidance 'Keeping Children Safe in Education'
- ensuring all staff and regular volunteers who work directly with children are aware of, understand and follow the DfE statutory guidance 'Keeping Children Safe in Education', and in particular Part one and Annex B. Those staff who do not work directly with children are aware of and understand either Part one or Annex A (a condensed version of Part one) of 'Keeping Children Safe in Education'. It is for the School Leadership Team (SLT) and DSL to decide which staff/volunteers should be provided with the relevant literature appropriate to their role
- promoting good health and preventing the spread of infection
- managing behaviour and adopting safe and acceptable physical intervention techniques (refer to individual school Behaviour Policy and procedures for details)
- raising awareness of child protection issues, equipping children with the skills needed to keep them safe and empowering children to feel safe
- being alert to any issues of concern in children's lives at home or elsewhere

- ensuring that mechanisms are in place to assist staff to understand and discharge their role and responsibilities as outlined in Part one (or Annex A, where appropriate) of KCSiE
- ensuring all staff can recognise the signs and symptoms of abuse and are aware of their setting's procedures and lines of communication for reporting concerns or suspected or actual cases of abuse
- ensuring extra care is taken to ensure that signs of abuse and neglect are identified and interpreted correctly, particularly for **vulnerable groups** such as children with communication/language difficulties or who use alternative/augmented communication systems
- ensuring that staff have the skills, knowledge and understanding necessary to support 'looked-after and previously looked-after children' and to keep them safe. Reference will be made to the NICE guidance document 'Looked-after children and young people'
- monitoring and supporting children and young people who have been identified as having welfare or protection concerns in accordance with his/her agreed Child Protection Plan
- keeping confidential records, which are stored securely and shared appropriately with other professionals
- ensuring all steps are taken to maintain site security and pupils' physical safety by establishing a safe environment in which children can learn and develop
- ensuring staffing arrangements meet the needs of all children and ensure their safety. We will ensure that children are adequately supervised and decide how to deploy staff to ensure children's needs are met. In relation to ratios for the Early Years and Foundation Stage, we follow the statutory guidance in the DfE revised Statutory Framework for the Early Years Foundation Stage
- maintaining robust records, Policies and procedures.

## 5 Entitlement

Across the Trust we accept and embrace our legal responsibilities under the Human Rights Act 1998 (HRA) which sets out the fundamental right and freedoms that everyone is entitled to. Being subjected to harassment, violence and or abuse, including that of a sexual nature may breach any, or all, of the rights made under the HRA depending on the nature of the conduct and the circumstances.

We also have obligations under the Equality Act 2010. We will not unlawfully discriminate against pupils because of their sex, race, disability, religion or belief, gender reassignment or sexual orientation (protected characteristics). Each child in our schools, regardless of their background or home circumstances could be the victim of abuse, whether it is by a parent, an adult known to them, another child or peer or a stranger. They are therefore all entitled to the same degree of protection and support. Each child in our schools will also develop the skills appropriate to their age and understanding which could enable prevention of abuse by learning about keeping safe and who to ask for help if their safety is threatened.

As a Trust we have implemented an Equality Policy with objectives to promote equality of opportunity for children in our care, including support for children with special educational needs or disabilities, those identified as 'carers', looked-after children and those with protected characteristics. Our Equality Policy takes account of the whole Trust community. Schools then develop their own specific objectives based within the Trust objectives and relevant to supporting the individual needs of all children (including how those children who are disabled, have special educational needs or other health conditions will be included, valued and supported, and how reasonable adjustments will be made for them); the name of the Special Educational Needs Co-ordinator; arrangements for recording, reviewing, monitoring and evaluating the effectiveness of inclusive practices that promote and value diversity and difference; how we will advance equality of opportunity and foster good relations between those who share a relevant protected characteristic and those who do

not; how inappropriate attitudes and practices will be challenged; and how the provision will encourage children to value and respect others.

## 6 Implementation

This Policy and supporting procedures apply to all who come into contact with children in our Trust schools, including teachers, supply staff, learning support staff, teaching assistants, midday supervisors, administration staff, meals supervisors, caretaker, cleaners, visiting students, parent helpers/volunteers, LGB members and other visitors including contractors and other external providers who use the school premises for the purposes of running activities for children.

This Policy should be read in conjunction with other related Trust and school Policies and procedures and any current local or national public health related advice affecting the safety and welfare of children including:

- Overarching Safeguarding Statement
- Health and Safety Policy and procedures
- Online Safety Policy and procedures
- Behaviour Policy and procedures for preventing and dealing with bullying (including cyber-bullying, prejudice-based and discriminatory bullying and the potential for radicalisation) and racism, drug misuse, positive handling, support and physical intervention etc.
- Code of Conduct for Staff and Other Adults
- Relationships and Sex Education (RSE) Policy
- Child on child Abuse Policy and procedures
- Safer Recruitment, Selection and Pre-Employment Vetting Policy and procedures
- Single Central Record (restricted access, unique to each site)
- Equality Policy and Objectives
- Accessibility Plan
- Data Protection Policy and procedures
- Supporting Pupils with Medical Conditions Policy and procedures
- Special Educational Needs Policy/Information Report
- Whistleblowing procedures
- Intimate Care procedures
- Offsite Visits procedures (including procedures for assessing risks)
- First Aid and Accident procedures
- Attendance procedures
- Missing Child procedures
- First Day Calling procedures
- Emergency Plan(s) (including Lockdown procedures)
- Guidance on the Use of Photographic Images
- Procedures for protecting children when contractors are working in educational settings
- Code of Conduct for adults visiting or working on a school site (leaflet)
- Risk Assessments (incl. Fire Safety)
- Premises Management including security measures (formal inspections and Buildings Register)
- School hire arrangements
- School Engagement Protocol

and DfE, Ofsted and Local Safeguarding Children Partnership (SCP) guidance as outlined in 'Referenced statutory and non-statutory guidance' below.

## 7 Child protection during emergencies

During periods of uncertainty such as emergencies including local or large-scale public health incidents, it is particularly important to safeguarding children who may be at an increased risk of abuse, harm and exploitation from a range of sources. The procedures which follow this Policy statement will always be adhered to, but we recognise that amendments or additions may be required to support those directly affected by an emergency. All children are vulnerable, but some may be especially so during periods where

they or their households are excluded from school or work. It is equally important to safeguard families, with parents facing significant pressures to continue to protect and promote the welfare of their children. These parents may already be struggling and so with additional pressure the likelihood of harm or significant harm may increase. In all known or emerging child protection cases, staff (particularly those with safeguarding responsibilities) will be mindful of the affects an emergency may have on families and children.

Additional issues which may need consideration or action include:

**Poverty** - where families are unable to meet the basic needs of children, this can, in some cases, lead to an increased likelihood of abuse, neglect and harm.

**Reduced access to support networks** – resulting in children who are abused and harmed being unseen and unheard.

**Accommodation** - Vulnerable children and families can often face challenges with their accommodation. They may have temporary accommodation or a lack of space which is exacerbated by the fact that the whole family may be excluded from school or work, unable to leave the family home for exercise and social contact, which can lead to an increase in abuse and neglect

**Domestic abuse** – A large scale public health incident or similar situation can disrupt routines and behaviours, both positively and negatively and it is important to be aware of how the tension can escalate to violence and abusive behaviours between families, parents and children.

**Substance abuse** - Unhealthy coping mechanisms can involve a reliance on substances that provide relief and escapism by adults and children alike. Substances alter the behaviour of parents and create a lack of safety for children and young people. It is important to understand how families manage the stresses faced during an emergency or large-scale public health incident - with associated worries around employment, finances and health.

**Neglect** – Self or household isolation can place children at a greater risk of neglect. This is compounded by the increased economic challenges and poverty that families may be facing, and by the increased exposure of children to neglectful environments.

**Children with additional needs** - Children and young people with additional needs and disabilities are more likely to be abused or neglected than non-disabled children, and less likely to disclose harm due to communication and other difficulties. With localised public health incidents that affect the opening of schools or require exclusion, families may find increased time at home and additional caring responsibilities, a strain.

We will consider how to seek the voice of the child during these times, and whether online or telephone contact is enough to ensure their wellbeing and safety. This is especially important where communication difficulties make these means less effective.

**Remote education** – during periods where remote education is required, our communications with parents will be used to reinforce the importance of children being safe online and will provide details of the systems we use in school to filter and monitor online use. We will be clear on what their children are being asked to do online, including the sites they will be asked to access and who from the school their child is going to be interacting with.

## 8 Review

This Policy will be reviewed annually (as a minimum) and more often should legislation or statutory guidance change and to keep up to date with safeguarding issues as they emerge and evolve, including lessons learnt from Serious Case Reviews both locally and nationally.

# Procedures

---

## 1 Roles and responsibilities

The Trust directors, Local Governing Body members and staff have a shared responsibility to safeguard children. The Trust directors/Local Governing body and the senior leadership team, especially the Designated Safeguarding Lead and deputies, will make themselves aware of and follow local arrangements.

For Trust schools the three safeguarding partners in Cumbria (depending on the location of the school) are:

- Cumberland Council / Westmorland and Furness Council
- Cumbria Constabulary
- North Cumbria Clinical Commissioning Group or Morecambe Bay Integrated Care Partnership

The three safeguarding partners in Northumberland are:

- Northumberland County Council
- Northumberland Constabulary
- And Northumbria Clinical Commissioning Group

It is the responsibility of the safeguarding partners to arrange to work together with appropriate relevant agencies (including schools) to safeguard and promote the welfare of children, including identifying and responding to their needs.

In addition to the shared responsibility there are certain designated persons in school with more specific roles and responsibilities as detailed below:

### 1.1 The Role of the Board of Directors

As the body accountable to the Secretary of State for the performance of each school it is important that the Trust's Board of Directors is kept informed of relevant safeguarding issues.

An overview of safeguarding in Trust schools will be presented to Trust Directors at each Board meeting and, where deemed necessary, the Trust will follow-up any concerns and issues through the CEO.

Through the Safeguarding Director the Board will be informed of the following:

- Overview of incidents that are referred to the Local Safeguarding Partnership with respect to adults employed at the school
- Overview of the **termly** report from each Trust school regarding referrals to the Local Safeguarding Partnership, including data where no such referrals have been made

Where any safeguarding concerns relate to the headteacher, executive headteacher or central Trust staff, it remains the responsibility of the Trust to decide on the course of action regarding suspension or dismissal.

As proprietors of the Trust, the Board of Directors will ensure they facilitate a whole Trust approach to safeguarding, ensuring safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development. Ultimately, all systems, processes and policies will operate with the **best interests** of the child at their heart.

## 1.2 The Role of the Designated Safeguarding Director

The Designated Safeguarding Director's role is to:

- to receive details immediately **with respect to adults employed at the school and** to receive briefings on any other safeguarding matters deemed urgent by the CEO
- to receive a **termly** report from each of the Trust schools regarding referrals to the Local Safeguarding Partnership, this must include a nil return if no such referrals have been made
- to receive reports from Consultants which cover safeguarding issues in accordance with the Trust's School Engagement Protocol
- to receive a written annual report from the LGB member(s) with safeguarding responsibility of each school, about the delivery and ethos of safeguarding in their setting
- to work with the CEO to produce an annual safeguarding report to the Board with any recommendations.

## 1.3 Executive Safeguarding Role (CEO)

The role of the Trust CEO is:

- ensure the Child Protection Policy is reviewed annually and the procedures and implementation are updated and reviewed regularly across the Trust, and work with the Trust Board regarding this
- to have oversight of the School Improvement Consultant's safeguarding monitoring activities as part of the Annual audit.
- to ensure statutory duties are met and checking for impact
- to monitor each LGB to ensure they are effectively scrutinising statutory compliance about safeguarding and child protection. This will include ensuring annual audits take place and receiving and reviewing the audit reports from all the schools (template **available through the Trust Website member's area**).
- to liaise with the Trust board and schools to facilitate training and support where appropriate
- to ensure appropriate documentation is made available to the Designated Safeguarding Director
- to ensure that Designated Safeguarding Leads across the Trust have appropriate training (including Online safety training) at regular intervals and documentation to discharge their responsibilities. That they take part in strategy discussions and other inter-agency meetings and contribute to the assessment of children
- to provide a report to each Trust Board meeting that contains details of any incidents reported to Local Safeguarding Partnership
- ensure that online safety is appropriately monitored and reviewed by undertaking an annual review of the school's approach to online safety, supported by an annual review of the risk assessment that considers and reflects the risks the children face. We will use appropriate tools for this purpose such as the self-review tool 360 safe or LGfL online safety audit.
- Ensure that across the Trust all staff and volunteers feel able to raise concerns about poor or unsafe practice in relation to children, and such concerns are addressed sensitively and effectively in a timely manner by supporting the Whistleblowing and low-level concerns procedures.

## 1.4 The role of the Designated Safeguarding Lead (DSL)

Each school must have a member of the Leadership Team designated by the Local Governing Body as the Safeguarding Lead (DSL) who will provide support to staff members and other adults to carry out their safeguarding duties and who will liaise closely with other services such as the LA Children's Social Care. The DSL (and any deputy/ies) is most likely to have a complete safeguarding picture of an individual child or family background. The role of the Designated Safeguarding Lead is explicit in the role-holder's job description and includes the roles outlined in Annex C – Role of the designated safeguarding lead in Keeping Children Safe in Education.

During term-time the DSL and/or a deputy will always be available (during school hours) for staff in the school to discuss any safeguarding allegation, or concern (no matter how small). Arrangements will be made to ensure that access to the DSL or a deputy will be available to staff during off-site visits or other extra-curricular activities taking place outside normal school hours.

There will always be cover for this role and the deputy DSL's will be trained to the same standard as the DSL. The role of the deputy DSL is explicit in the role-holder's job description.

Whilst the activities of the DSL can be delegated to appropriately trained deputies, the ultimate **lead responsibility** for child protection (including in relation to online safety), as set out below, remains with the Designated Safeguarding Lead, this **lead responsibility** should not be delegated.

The DSL will have knowledge and skills for recognising and acting upon Child Protection concerns, having received appropriate training. The DSL is also the 'Prevent Single Point of Contact' (SPOC).

#### 1.4.1 Liaison and referrals

##### The Designated Safeguarding Lead will:

- act as a source of support, advice and expertise for all staff
- act as a point of contact, liaise with and, where requested, supply information to local statutory children's services agencies and the three safeguarding partners which make up the local SCP in line with Working Together to Safeguard Children
- discuss with Police and LA Children's Social Care colleagues the local response to sexual violence and sexual harassment between children so that they are confident as to what local specialist support is available to support all children involved (including victims and alleged perpetrators) and how to access this support when required
- refer to Police individual incidents or issues, where deemed necessary. The NPCC guidance 'When to call the Police' will help DSLs understand when they should consider calling the Police and what to expect when they do. This will include being aware of the requirements for children to have access to an 'appropriate adult' (both on and off-site) who can support them when the Police or other agency professional requests to see, question or search a child. In all such cases, the school remains legally responsible for the child in their care, and it may be necessary to seek clarification from the agency on their reasons for the request to ensure the child is properly supported and where required, parents are informed before **any** such requests are sanctioned
- refer all cases of suspected abuse or allegations to Local Safeguarding contacts (see Section 5 or the Roles and Responsibility sheet for contact and referral details) in accordance with the multi-agency threshold guidance
- make a referral to the Local Safeguarding Hub immediately if, at any point, there is a risk of immediate serious harm to a child – **anybody can make a referral**
- support staff who make referrals to the Local Authority Safeguarding Partnership
- where required to do so, liaise with the "Case Manager/Designated Senior Manager" and the Local Authority Designated Officer (LADO) in the case of a concern or allegation made against a member of staff or another adult
- refer to the DBS anyone who has harmed, or poses a risk of harm, to a child and who has been removed from working (paid or unpaid) in regulated activity or would have been removed had they not voluntarily left the school. See also Section 24 below
- refer concerns about pupils who may have disappeared or whose transfer has raised concerns to Children's Services Children Missing Education (CME) Officer
- ensure that an indication of further record-keeping is marked on the pupil records
- ensure that the most relevant trained person attends case conferences, core groups, or other multi-agency planning meetings, contributes to assessments, and provides a report which has been shared with the parents where necessary
- ensure that any child currently on a Child protection Plan who is absent without explanation for two days is referred to their key worker's Social Care Team

- understand and support the school in relation to the requirements of the Prevent duty and provide advice and support to staff on protecting children from the risk of radicalisation
- be aware of the local procedures for making a 'Prevent' referral
- liaise with staff (especially pastoral support staff, school nurses, IT technicians, SENCOs and Senior Mental Health Leads) on matters of safety and safeguarding (including online and digital safety) and act as a source of support, advice and expertise within school when deciding to make a referral using the Cumberland and safeguarding Hub Single Contact on-line form <https://contactus.digital.cumberland.gov.uk/> / Westmorland and Furness Safeguarding Hub Single Contact on-line Form <https://scformwmf.cumbria.gov.uk/>
- liaise with the Headteacher (where this is not one and the same person) to inform them of issues especially ongoing enquiries under section 17 (child in need) and section 47 of the Children Act 1989 and Police investigations.

#### 1.4.2 Training:

##### **The Designated Safeguarding Lead will:**

receive appropriate training, updated every two years (see Section 6 below) to:

- understand the assessment process for providing early help and intervention, for example through locally agreed common and shared assessment processes such as Early Help Assessments (EHA)
- have a working knowledge of how the Local Authority conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required to do so
- ensure each member of staff has access to and understands their school's Child Protection Policy and procedures, especially new and part-time staff, supply staff and volunteers/students
- be alert to the specific needs of children in need, including those with special educational needs, young carers and those at risk of radicalisation or child sexual exploitation
- understand and support staff in challenging inappropriate behaviours associated with sexual violence and sexual harassment among all children, paying particular attention to those who are or are perceived to be LGBT
- understand the issues relating to harmful sexual behaviour (HSB) to plan preventative education and implement preventative measures
- understand relevant data protection legislation and regulations, especially the Data Protection Act 2018 and the UK General Data Protection Regulation
- understand their role in multi-agency working and the importance of information sharing, both within the school, and with the three safeguarding partners, other local agencies, organisations and practitioners
- understand the unique risks associated with online safety (including an understanding of the filtering and monitoring systems and processes in place in the school) and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school and to support other adults in doing so
- recognise the additional risks that children with SEN, disabilities (SEND) and other medical or physical health conditions face both online and offline, for example, from online bullying, grooming and radicalisation and are confident they have the capability to support SEND children to stay safe online
- be able to keep detailed, accurate and secure written records of concerns and referrals
- obtain access to resources and attend any relevant or refresher training courses and, where required, disseminate information learned from training to others in the setting
- encourage a culture among all staff and other adults of listening to children and taking account of their wishes and feelings, in any measures the school may put in place to protect them.

### 1.4.3 Raising awareness

#### The Designated Safeguarding Lead will:

- ensure that, during the induction process, all staff and volunteers are made aware of, and understand, the Trust's Child Protection Policy and procedures, the Code of Conduct for staff and other adults and are provided with a copy of Part one (or Annex A, where appropriate) of 'Keeping Children Safe in Education - Safeguarding information for all staff', DfE guidance 'What to do if you're worried a child is being abused' and the Local SCP 'Summary of Allegations Management Procedures Flowchart'
- ensure that all staff are made aware of and understand the school's safeguarding response to children who are absent from education, particularly on repeat occasions and/or prolonged periods
- ensure that all staff and other adults are made aware of the appropriate language/terminology to use when speaking in front of or to children – see definitions of 'victim' and 'alleged perpetrator(s)' and 'perpetrator(s)' outlined on page 1 of the Policy statement
- ensure that procedures are known and followed by staff, particularly concerning referrals of cases of suspected abuse, neglect, child on child abuse and issues relating to sexual violence and sexual harassment
- ensure that the procedures and implementation of the Child Protection Policy are updated and reviewed annually (more often should the need arise) in-line with the Trust's policy, and work with the CEO regarding this
- ensure the Child Protection Policy and procedures are available publicly and parents are aware that referrals about suspected abuse or neglect may be made and the role of the school in this process
- link with the Local Safeguarding Partnership's arrangements to make sure staff are aware of training opportunities and the latest local procedures on safeguarding
- help promote educational outcomes by sharing the information about the welfare, safeguarding and child protection issues that children, including children with a social worker, are experiencing, or have experienced, with teachers (on a need-to-know basis) and school leadership staff. Their role could include ensuring that the school and its staff, know who these children are, understand their academic progress and attainment and maintain a culture of high aspirations for this cohort; supporting teaching staff to identify the challenges that children in this group might face (both online and offline) and the additional academic support and adjustments that they could make to best support these children
- where children leave the school (including for in-year transfers), the DSL will ensure their Child Protection file is forwarded to any new school as soon as possible, and within 5 days for an in-year transfer or within the first 5 days of the start of a new term to allow the new school to have support in place for when the child arrives. The DSL should ensure secure transit and a confirmation of receipt should be obtained. The file will be transferred separately from the main pupil file. A copy of the chronology will be retained in school. Consideration will also be given to whether information should be shared with the new school significantly in advance of a child leaving the school so that the receiving school can have the appropriate support in place for when the child arrives. Further information on the child protection file is outlined in Annex C of Keeping Children Safe in Education.

## 1.5 The Role of the Headteacher

It is the responsibility of the headteacher to:

- ensure that the Policies and procedures adopted by the Local Governing Body are fully implemented and followed by all staff and, where appropriate, by other adults
- ensure that all staff receive an appropriate induction to the work (paid or unpaid) they are to undertake in the school and that this induction includes a section on the procedures to follow if they are worried about a child or the management of child protection generally in the school
- ensure all staff and, where appropriate, volunteers attend or are given access to training in child protection procedures and strategies to enable them to identify children who may be at risk from all forms of abuse or harm
- ensure sufficient resources and time is allocated to enable the Designated Safeguarding Lead (where this is not one and the same person) and other staff to discharge their responsibilities, including taking part in strategy discussions and other inter-agency meetings, and contributing to the assessment of children
- ensure that a termly report, including a nil return report of referrals made to the Local Safeguarding Partnership is made to the Designated Safeguarding Director
- ensure all staff and volunteers feel able to raise concerns about poor or unsafe practice in relation to children, and such concerns are addressed sensitively and effectively in a timely manner by supporting the Whistleblowing Policy

## 1.6 The Designated Teacher for Looked-After and Previously Looked-After Children

The most common reason for children becoming looked after is abuse and/or neglect. A previously looked-after child potentially remains vulnerable and all staff are equipped with the skills, knowledge and understanding to keep both looked-after and previously looked-after children safe.

The designated teacher for looked-after and previously looked-after children has lead responsibility for helping school staff understand the things which affect how looked-after children learn and achieve in line with the DfE statutory guidance 'The designated teacher for looked-after and previously looked-after children – Statutory guidance on their roles and responsibilities'.

The designated teacher will:

- have received appropriate training and have the relevant qualifications and experience to take the lead in promoting the educational achievement of registered pupils who are looked-after
- liaise and work together with other agencies providing prompt action to safeguard any looked-after or previously looked-after child
- promote the overall health and wellbeing of looked-after and previously looked-after children liaising with social workers and the Virtual School Head and ensuring they have information about the child's physical, emotional or mental health that may have an impact on his or her learning and educational progress
- promote a culture of high expectations, educational achievement and aspirations for children who have left care through adoption, special guardianship or child arrangement orders or who were adopted from state care outside England and Wales
- work with the virtual school head to promote the educational achievement of looked-after and previously looked-after children
- make sure the young person has a voice in setting learning targets
- be a source of advice for staff about differentiated teaching strategies appropriate for individual children making full use of Assessment for Learning
- make sure that looked-after or previously looked-after children are prioritised in one-to-one tuition arrangements and that carers understand the importance of supporting learning at home

- have lead responsibility for the development and implementation of the child's personal education plan (PEP) within the school.

### 1.7 The role of teachers

Teachers, including the Headteacher, will safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties in line with the Teachers' Standards 2011 (updated 2021).

### 1.8 The role of the school counsellor

Ensuring confidentiality between the child or young person and counsellor is crucial to the success of the relationship and the outcomes of counselling. A frequent concern raised by children and young people who have not experienced counselling services is that others will be informed about what has been discussed in sessions. While counsellors are used to working within confidentiality codes, they will be aware that there is no such thing as absolute confidentiality when working with children and young people. Child protection concerns and the welfare of children and young people will, at times, need to take precedence over confidentiality.

Counsellors should discuss difficult decisions about disclosures/reports with their clinical supervisor and line manager and, if appropriate, the DSL within the school. Where they think anyone is at risk of significant harm, they should report this to the DSL immediately.

### 1.9 The role of ALL staff (including supply staff and volunteers)

- All staff have a responsibility to provide a safe environment in which children can learn
- All staff have a responsibility to read and properly understand 'Keeping Children Safe in Education Information for All School and College staff' (Part one) (or Annex A, where appropriate), DfE guidance 'What to do if you're worried a child is being abused', the Code of Conduct for staff and other adults who work with children, the Child Protection Policy and the procedures to follow if they have concerns about a child regardless of the presumed seriousness of the case.
- All staff should be aware of indicators of abuse and neglect understanding that children can be at risk of harm inside and outside of the school, inside and outside of home and online. Exercising professional curiosity and knowing what to look for is vital for the early identification of abuse and neglect so that staff can identify cases of children who may need help or protection.
- All staff should know what to do if a child tells them they are being abused, exploited, neglected or otherwise at risk of harm. **Always** speak to the DSL (or a deputy). If in exceptional circumstances, the DSL or a deputy is not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the Senior Leadership Team, the Trust CEO and/or take advice from the Local Authority (LA) Children's Social Care. In these circumstances, any action taken should be shared with the DSL (or a deputy) as soon as practically possible
- All staff should have an awareness of safeguarding issues that can put children at risk of harm. Behaviours linked to issues such as drug taking and or alcohol misuse, deliberately being absent from education, serious violence (including that linked to county lines), radicalisation and consensual and non-consensual sharing of nude and/or semi-nude images and/or videos can be signs that children are at risk. Further information relating to other signs of harm are set out in Part one of Keeping Children Safe in Education
- All staff should be aware that children can abuse other children (child on child abuse) and that it can happen both inside and outside of school and online. Staff should be clear on and understand the importance of their role in preventing and responding to it and be clear on the school Policy and procedures. See Section 11 below and the separate Child on Child Abuse Policy and Procedures

- All staff should be able to reassure victims (regardless of how long it has taken them to come forward) that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting **any** form of abuse and/or neglect, nor should a victim ever be made to feel ashamed for making a report
- **All staff** should be aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful. For example, children may feel embarrassed, humiliated, or may be being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from having a professional curiosity and speaking to the DSL if they have concerns about a child. It is also important that staff determine how best to build trusted relationships with children and young people which facilitate communication. The language/terminology staff use in individual situations may be critical and staff should be aware of how important it is to use appropriate language and terminology on a case-by-case basis. See definitions on page 1 of the Policy statement
- All staff are advised to speak to the DSL, or a deputy should they have a concern about the mental health of a child as this can, in some cases be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation
- All staff should be prepared to identify children who may benefit from early help and understand their role in it. (See Section 2.1 below). This includes identifying emerging problems, providing help and support to meet the needs of children as soon as problems emerge, promoting children's welfare and preventing concerns from escalating, liaising with the DSL, sharing information with other professionals to support early identification whether this is when problems are first emerging (for example, persistent school absence) or where a child is already known to Children's Social Care and, in some cases, acting as the lead professional in undertaking an early help assessment
- All staff should be aware of the process for making referrals to the LA Children's Social Care and for statutory assessments under the Children Act 1989, especially section 17 (children in need) and section 47 (a child suffering, or likely to suffer, significant harm) that may follow a referral, along with the role they might be expected to play in such assessments
- All staff should be aware of and understand the safeguarding response to children who are absent from education, particularly on repeat occasions and/or prolonged periods
- All staff should be aware that safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside of these environments. Staff, but especially the DSL (and deputy) should consider whether children are at risk of abuse, sexual abuse, serious youth violence, county lines or sexual/criminal exploitation in situations outside their families and should understand how to handle reports of sexual violence and harassment between children, both on and outside school premises, in line with this Policy
- **All** staff should be aware that technology is a significant component in many safeguarding and wellbeing issues. Children are at risk of abuse and other risks online as well as face to face. In many cases abuse and other risks will take place concurrently both online and offline. Children can also abuse other children online, this can take the form of abusive, harassing, and misogynistic/misandrist messages, the non-consensual sharing of indecent images, especially around chat groups, and the sharing of abusive images and pornography, to those who do not want to receive such content
- If a staff member has any concerns about a child who is suffering, or is likely to suffer from harm, they should act on them immediately. There should be a conversation with the DSL (or a deputy) to agree a course of action, although any staff member can make a referral to the LA Children's Social Care. If a referral is made by a member of staff, they should inform the DSL as soon as possible
- If, at any point, there is a risk of immediate serious harm to a child a referral will be made to the relevant local authority Safeguarding Hub immediately – **anybody can make a referral**.

## 1.10 The role of the Local Governing Body

The Chair of each school's Local Governing Body will liaise with the Local Authority Designated Officer (LADO) appointed by the Local Authority and partner agencies in the event of allegations of abuse made against the Headteacher. In the event of allegations of abuse being made against the Headteacher, the allegation will be reported directly to the LADO and the Trust's designated safeguarding director should be informed.

### **The Local Governing Body is accountable to the Trust for ensuring their establishment:**

- has a senior staff member lead to take leadership responsibility for the school's safeguarding arrangements with the appropriate authority and be given the time, funding, training, resources and support to provide advice and support to other staff, liaising with the Trust, LA and working with local multi-agency safeguarding partners and other agencies
- has appointed an appropriate senior member of staff, from the school leadership team to the role of Designated Safeguarding Lead (DSL) with a named deputy. The DSL will take lead responsibility for safeguarding and child protection. This responsibility is explicit in the role-holders' job descriptions
- has a nominated LGB Member with responsibility for Safeguarding who is responsible for scrutinising the work of the school. More details on this role can be found in **section 1.11**
- contributes to inter-agency working in line with statutory guidance
- provides a co-ordinated offer of early help assessment when additional needs of children are identified and contribute to inter-agency plans to provide additional support to children subject to child protection plans
- has provided the means to ensure that **all staff** in their school have read 'Keeping Children Safe in Education Information for All School and College staff' (Part one) (or Annex A, where appropriate), and has mechanisms in place to assist staff to understand and discharge their role and responsibilities as set out in the above'
- effectively implements the Trust's Policies and procedures for child protection and staff behaviour as part of the Behaviour Policy and the staff Code of Conduct and Staff IT Acceptable Use Agreement, and to ensure these are provided to staff and appropriate volunteers on induction
- actively promotes fundamental British values as part of the school's curriculum to ensure pupils' spiritual, moral, social and cultural (SMSC) development
- assesses the risk, taking local context into account, of children being drawn into terrorism, including support for extremist ideas that are part of terrorist ideology
- has procedures in place for monitoring online safety and regularly monitors systems and practices to ensure their school leaders are keeping children safe online. UKCIS guidance 'Online safety in schools and colleges: Questions from the Governing Board' is used to ensure this
- has a culture of listening to children and taking account of their wishes and feelings, both in individual decisions and the development of services
- has arrangements in place for supporting pupils with medical conditions
- adheres to the Trust Safe Recruitment Policy; including statutory responsibilities to check staff and other adults who work with children to prevent people who pose a risk of harm from working with children (either paid or unpaid), taking proportionate decisions on whether to ask for any checks beyond what is required, and ensuring volunteers not in 'regulated activity' are appropriately supervised
- has at least one person on any appointment panel who has undertaken safer recruitment training
- follows procedures outlined in this policy for dealing with allegations against members of staff, supply staff and volunteers
- follows procedures for dealing with allegations against other children (child on child abuse) in accordance with the Whole School Behaviour Policy and the Child-on-child Abuse Policy

and procedures in the first instance, other more serious allegations will be dealt with following advice from the Local Safeguarding Partnership

- has appointed a designated teacher to promote the educational achievement of looked-after or previously looked-after children and ensures that this person has appropriate training – **SEE ABOVE**
- ensures that staff have the skills, knowledge and understanding necessary to keep looked-after or previously looked-after children safe and have the information they need in relation to a child's 'looked after' legal status (whether they are looked after under voluntary arrangements with consent of parents or on an interim or full care order) and contact arrangements with birth parents or those with parental responsibility
- operates the Trust Whistleblowing Policy and will remedy any deficiencies or weaknesses regarding child protection arrangements that is brought to its attention without delay and report these to the Trust through their School Improvement Consultant or the CEO
- has appropriate safeguarding responses to children who go missing from education, particularly on repeat occasions, to help identify any risk of abuse and neglect including sexual abuse or exploitation and to help prevent the risks of their going missing in the future
- ensures the child's wishes or feelings are considered when determining what action to take and what services to provide to protect individual children through ensuring there are systems in place for children to express their views and give feedback
- ensures staff members are aware that they must not promise confidentiality to the child and always act in the best interests of the child
- has a standing Child Protection item on the Local Governing Body agenda
- undertakes a full audit of the Safeguarding systems and procedures in place on an annual basis and share the information with the full LGB and the Trust Board. The template form for the safeguarding audit can be found in on the Member's area of the Trust website.

### 1.11 The role of the LGB Member with Safeguarding Responsibility

Each school has a nominated Local Governing Body member who is responsible for scrutinising the work of the school to ensure the safety of all students so that they are kept safe from harm and educated effectively to keep themselves safe. It is recommended that the LGB member with responsibility for Safeguarding should not be a parent or teacher Local Governing Body Member as this could lead to them being compromised in the event of a disciplinary matter.

Outline of Duties for this role are:

- to be familiar with statutory guidance and policy relating to Safeguarding and Child Protection and associated issues
- to ensure that the Local Governing Body effectively uses the Trust's Safeguarding and Child Protection Policies and associated procedures and to support the school in monitoring the effective implementation of these
- to champion safeguarding and child protection issues within the school and amongst the LGB, ensuring child protection is on every LGB agenda
- to ensure the LGB understand their responsibilities regarding Child Protection and assist them to perform their functions in respect of Safeguarding Children and Young People, including monitoring attendance at and completion of safeguarding training for LGB members
- challenge the school to be rigorous in identifying and swiftly rectifying any deficiencies in safeguarding practices and bring these to the attention of the LGB
- to meet regularly with the school's DSL and keep up to date with any significant issues arising
- to work with staff to monitor the policy and practise regarding child protection, including checking the SCR is complete and up to date, ensuring appropriate training is in place for school staff, volunteers and LGB members

- to ensure that the LGB receives an annual safeguarding report on the ethos and implementation of the Trust's safeguarding and child protection policy and procedures. This report is to then be shared with the Designated Safeguarding Director enabling the Trust Board to be informed about the Safeguarding and Child Protection provision in individual schools, including any challenges. A guide to what to include in this report is available on the Member's area of the Trust website or via the Clerk
- be involved in undertaking the annual safeguarding audit alongside the DSL and Head teacher using the template **available through the member's area of the Trust website**
- to challenge the Headteacher as required to ensure that the DSL has sufficient time and resources to carry out their duties effectively, that a Deputy DSL is identified and that both are suitably trained
- to liaise with the designated officer(s) from the relevant local authority and partner agencies in the event of allegations of abuse made against the Headteacher. In the event of allegations of abuse being made against the Headteacher an allegation should be reported directly to the designated officer(s) and the Trust's designated safeguarding director should be informed
- to monitor the use of Safer Recruitment and the school's Single Central Record.

## 2 Supporting pupils at risk

The Trust recognises that children who are abused, exploited or neglected or who witness violence may find it difficult to develop a sense of self-worth and to view the world in a positive way. School may be the only stable, secure and predictable element in the lives of the children at risk.

### We will endeavour to support pupils through:

- a curriculum which encourages self-esteem and self-motivation
- the school ethos which promotes a positive, supportive and secure environment where everyone is valued
- listening to the child's views and concerns with an open mind
- the implementation of a shared Behaviour Policy and procedures
- a consistent approach which supports all children
- regular liaison with other professionals and agencies who support the pupils and their families
- the development and support of a responsive and knowledgeable staff group trained to respond appropriately in child protection situations.

In addition to the above, as part of wider safeguarding responsibilities, staff will be alert to:

- reports by pupils of their exposure to the extremist actions, views or materials of others outside of school, such as in their homes or community groups, especially where pupils have not actively sought these out
- graffiti symbols, writing or artwork promoting extremist messages or images
- pupils accessing extremist material on-line, including through social networking sites
- parental reports of changes in behaviour, friendship or actions and requests for assistance
- local schools, LA services and Police reports of issues affecting pupils in other schools or settings
- pupils voicing opinions drawn from extremist ideologies and narratives
- use of extremist or 'hate' terms to exclude others or incite violence
- intolerance of difference, whether secular or religious or, in line with our Equality Policy, views based on, but not exclusive to, gender, disability, homophobia, race, colour or culture
- attempts to impose extremist views or practices on others
- anti-western or anti-British views.

## 2.1 Children who may be particularly vulnerable and early help assessment

Early help is support for children of all ages that improves a family's resilience and outcomes or reduces the chance of a problem getting worse. It is not an individual service, but a system of support delivered by local authorities and their partners working together and taking collective responsibility to provide the right provision in their area.

All children are vulnerable, but some may be at increased risk of neglect and/or abuse and would especially benefit from early help assessment. Many factors can contribute to an increase in risk, including prejudice and discrimination, isolation, social exclusion, communication issues and reluctance on the part of some adults to accept that abuse happens, or who have a high level of tolerance in respect of neglect.

Any child may benefit from early help, but we are particularly alert to the potential need for early help for a child who:

- is disabled or has certain health conditions and has specific additional needs
- has special educational needs (whether they have a statutory Education, Health and Care Plan (EHCP) or not). See 2.4 below
- is suffering from mental ill-health
- is a young carer
- is bereaved
- is showing signs of being drawn in to anti-social or criminal behaviour, including being affected by gangs and county lines and organised crime groups and/or serious violence, including knife crime
- is frequently missing and/or goes missing from care or home
- is at risk of modern slavery, trafficking, sexual and/or criminal exploitation
- is at risk of being radicalised
- is viewing problematic and/or inappropriate online content (e.g., linked to violence), or developing inappropriate relationships online
- has a parent in custody, or is affected by parental offending
- is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse or adult mental health issues and domestic abuse
- is misusing alcohol and/or other drugs themselves
- has returned home to their family from care
- is at risk of so-called 'honour'-based abuse such as Female Genital Mutilation or Forced Marriage
- is a privately fostered child. See 2.6 below
- is persistently absent from education, particularly on repeat occasions and/or for prolonged periods where this is either for the full, or part of, the school day or not in receipt of full-time education which can be a warning sign of abuse or neglect
- has experienced multiple suspensions and is at risk of, or has been permanently excluded
- is at risk of fabricated or induced illness
- is an asylum seeker
- is vulnerable to being bullied, or engaging in bullying
- is showing early signs of abuse and/or neglect
- is living a transient lifestyle
- is living in a chaotic, neglectful and unsupportive home situation
- is vulnerable to discrimination and maltreatment on the grounds of race, ethnicity, religion or sexuality
- does not have English as a first language.

The appropriate Early Help Team can be contacted on:

### Northumberland Early Help Team

Tel: 01670 536400

Email: [earlyhelp@northumberland.gov.uk](mailto:earlyhelp@northumberland.gov.uk)

### Cumberland Early Help

Tel: 0300 303 3896

Email: [early.help@cumberland.gov.uk](mailto:early.help@cumberland.gov.uk)

### Westmorland and Furness Early Help

Tel: 0300 373 2723

Email: [early.help@westmorlandandfurness.gov.uk](mailto:early.help@westmorlandandfurness.gov.uk)

In addition to the above, we will refer to Chapter 3 of the statutory guidance 'Working Together to Safeguard Children' and guidance issued by the Local Safeguarding Partnerships in relation to [Early help](#).

Consideration will be given for specific needs, including but not limited to, family members who may have learning difficulties/disabilities or those whose first language is not English, are care experienced, young parents, fathers or male carers and parents who identify as LGBT. Special consideration includes the provision of safeguarding information, resources and support services in community languages and accessible formats.

An early help assessment is not a prerequisite for a referral but where one has been undertaken, it should be used to support the referral. Any cases resulting in early help will be kept under constant review and consideration given to a referral to the LA Children's Social Care for assessment for statutory services if the child's situation does not appear to be improving or is getting worse.

## 2.2 Children in need

A child in need is defined under the Children Act 1989 as a child who is unlikely to achieve or maintain a reasonable level of health or development, or whose health and development is likely to be significantly or further impaired, without the provision of services; or a child who is disabled. Children in need may be assessed under section 17 of the Children Act 1989.

Some children may need a social worker due to safeguarding or welfare needs. Children may need this help due to abuse, neglect and complex family circumstances. Local authorities should share the fact a child has a social worker, and the DSL should hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes. There are clear powers to share this information on both LAs and schools.

Where children need a social worker, this should inform decisions about safeguarding and about promoting welfare.

## 2.3 Children requiring mental health support

Schools have an important role to play in supporting the mental health and wellbeing of their pupils including those with the potential to self-harm. Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Each Trust school should ensure they have clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems. Each Trust school has an identified Mental Health Lead, who will work closely with the DSL and other senior leaders. More information can be found in the DfE guidance '[Mental health and behaviour in schools](#)' and, in relation to supporting pupils who may be or suspected to be self-

harming, the guidance from NICE '[Self-harm: assessment, management and preventing recurrence](#)'. Secondary schools may also wish to use the PHE resources accessible via the [Rise Above](#) website.

## 2.4 Pupils with SEN/Disabilities or physical health issues

Children with special educational needs and disabilities (SEND) or certain medical or physical health conditions are three times more likely to be abused both online and offline by their peers.

We recognise that children with special educational needs (SEN), disabilities or certain health conditions (whether they have a statutory education, health and care plan or not) can face additional safeguarding challenges and additional barriers can exist when recognising abuse and neglect in this group of children. This can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration
- these children being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children
- children with SEN, disabilities and other certain health conditions can be disproportionately impacted by things like bullying and peer group isolation – without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

The potential need for early help assessment and extra pastoral support in this group of children is considered as a priority.

Any reports of abuse involving children with SEND will therefore require close liaison with the DSL (or a deputy) and the SENCO.

## 2.5 Contextual safeguarding

Safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside the school. **All** staff, but especially the DSL (and deputies) should be considering the context within which such incidents and/or behaviours occur. This is known as contextual safeguarding, which simply means assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare. Additional information on contextual safeguarding is available from the [Contextual Safeguarding Network](#).

## 2.6 Private fostering

Private fostering occurs when a child under the age of 16 (under 18, if disabled) is provided with care and accommodation for 28 days or more by a person who is not a parent, person with parental responsibility for them or a relative in their own home. Staff will remain alert to, and, when it comes to their attention, report to the DSL, information which suggest a child is being privately fostered. The DSL will then notify the LA to allow the LA to check the arrangement is suitable and safe for the child.

## 3 Recognising types of abuse and neglect and significant harm

The Children Act 1989 introduced the concept of **significant harm** as the threshold that justifies compulsory intervention in family life in the best interests of children and gives local authorities a duty to make enquiries to decide whether they should take action to safeguard or promote the welfare of a child who is suffering, or likely to suffer, significant harm. This includes where there are concerns about maltreatment, including all forms of abuse and neglect, or other so-called honour-based abuse (including Female Genital Mutilation and Forced Marriage), and extra-familial harm such as exploitation by criminal and organised crime groups and individuals (such as county lines and financial exploitation), serious violence, modern slavery and trafficking, online harm, sexual

exploitation, teenage relationship abuse, and the influences of extremism which could lead to radicalisation. Children of all ages can experience extra-familial harm.

Where there are concerns that more than one child may be experiencing harm in an extra-familial context, the DSL will consider the individual needs of each child as well as work with the group. The children in the group may or may not already be known to local authority children's social care. Working with the whole group enables the DSL and other practitioners to build an understanding of the dynamics between those within the group and the extra-familial context.

All school staff are made aware that abuse, neglect, exploitation and safeguarding issues are rarely standalone events and cannot be covered by one definition or one label alone. In most cases, multiple issues will overlap with one another, therefore staff should always be vigilant and always raise any concerns with their DSL or a deputy.

### 3.1 Abuse

A form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse, including where they see, hear, or experience its effects. Children may be abused in a family, institutional or extra-familial context by those known to them or, more rarely, by others. Children may be abused by an adult or adults or another child or children. Abuse can take place wholly online, or technology may be used to facilitate offline abuse.

### 3.2 Physical abuse

A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent fabricates the symptoms of, or deliberately induces, illness in a child.

### 3.3 Emotional abuse

The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another – for example where there is domestic abuse, fighting or violence in the home. It may involve serious bullying (including cyberbullying, prejudiced-based and discriminatory bullying), causing children to frequently feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

For more information, see our procedures for preventing and dealing with bullying within the school's **Behaviour Policy and procedures**.

### 3.4 Sexual abuse

Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether the child is aware of what is happening or not. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the

internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The Trust's separate Policy and procedures on child-on-child abuse also includes procedures for dealing with reports of sexual violence and sexual harassment between children.

### 3.5 Neglect

The persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy because of maternal substance abuse. Once a child is born, neglect may involve a parent failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate caregivers); or ensure access to appropriate medical care or treatment; or provide suitable education. It may also include neglect of, or being unresponsive to, a child's basic emotional needs.

### 3.6 Specific safeguarding issues

Expert and professional organisations are best placed to provide up-to-date guidance and practical support on specific safeguarding issues. For example, NSPCC offers information for schools on its website <https://learning.nspcc.org.uk/>.

All staff have an awareness of specific safeguarding issues – some of which are listed below. Staff are made aware that behaviours linked to the likes of drug taking, alcohol abuse, truancy and consensual and non-consensual sharing of nude and/or semi-nude images and/or videos can be signs that children are at risk.

The Local Safeguarding Partnership's Procedures Manual provides specific guidance on a range of safeguarding issues which settings may have to address.

The DfE statutory guidance '[Keeping Children Safe in Education](#)' provides additional information at Annex B on the following:

#### 3.6.1 Child Sexual Exploitation (CSE)

All suspected cases of CSE will be referred to the Local Safeguarding Hub.

CSE is a form of sexual abuse (see 3.4 above) where children are sexually exploited for money, power or status. In some cases, young people are persuaded or forced into exchanging sexual activity for money, drugs, gifts, affection or status. CSE can affect any child (who has been coerced into engaging in sexual activities), under the age of 18 years, including 16- and 17-year-olds who can legally consent to have sex. Some children may not realise they are being exploited e.g.; they believe they are in a genuine romantic relationship. Consent cannot be given, even where a child may believe they are voluntarily engaging in sexual activity with the person who is exploiting them. CSE does not always involve physical contact and can happen online. A significant number of children who are victims of sexual exploitation go missing from home or care and/or are absent from school repeatedly and/or for prolonged periods at some point.

Although inter-agency working and information sharing are vital in identifying and tackling all forms of abuse, it is clear they are especially important to identify and prevent CSE.

By being aware of the warning signs of CSE school staff and other adults can help stop abuse before it develops further. Like all forms of child sex abuse, child sexual exploitation:

- can still be abuse even if the sexual activity appears consensual
- can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity
- can take place in person or via technology, or a combination of both
- can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence

- may occur without the child's immediate knowledge (e.g., through others copying videos or images they have created and posted on social media)
- can be perpetrated by individuals or groups, males or females, and children or adults. The abuse can be a one-off occurrence, and may happen without the child's immediate knowledge e.g., through others sharing videos or images of them on social media, or a series of incidents over time, and range from opportunistic to complex organised abuse
- is typified by some form of power imbalance in favour of those perpetrating the abuse. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources; and
- may be in exchange for something the victim needs or wants and/or will be to the financial benefit or other advantage (such as increased status) of the perpetrator or facilitator.

Further information is available in the DfE guidance '[Child sexual exploitation: definition and guide for practitioners](#)' and CSCP procedures [Child Exploitation](#) and includes a child exploitation assessment tool.

### 3.6.2 Sharing nude and/or semi-nude images and/or videos (formerly known as sexting)

All incidents involving youth produced sexual imagery will be responded to in line with our Child-on-child Abuse Policy and procedures which includes advice on sexual violence and sexual harassment (such as sexual comments, remarks, jokes and online sexual harassment, which may be stand-alone or part of a broader pattern of abuse) between children

Any direct report by a pupil (male or female) will be taken very seriously. A child who reports they are the subject of sexual imagery is likely to be embarrassed and worried about the consequences. It is likely that reporting in school is a last resort, and they may have already tried to resolve the issue themselves. When an incident involving the inappropriate sharing of images via the internet or mobile device comes to a school's attention the school will follow the guidance as set out in the UK Council for Internet Safety (UKCIS) publication outlined below. A [summary version](#) of this guidance in particular, how the school will respond to an incident, will be shared with all staff as part of their Child Protection regular updated training.

When considering appropriate action regarding the sharing of inappropriate images, the DSL will take the age of the child involved and the context into account. Consensual image sharing, especially between older children of the same age, may require a different response. It might not be abusive, but children still need to know it is illegal, whilst non-consensual is illegal and abusive. Children under 13 are given extra protection from sexual abuse. The law makes it clear that sexual activity with a child under 13 is never acceptable and that children of this age can never legally give consent to engage in sexual activity. Any situations involving pupils in this school and the sharing of nude and/or semi-nude images and/or videos will be taken seriously as potentially being indicative of a wider child protection concern or as being problematic or harmful sexual behaviour (HSB). Further and more specific advice is contained within the UKCIS document '[Sharing nudes and semi-nudes - Advice for education settings working with children and young people](#)' which also includes advice on responding to incidents and safeguarding children and young people. A copy of this document is held in the office of each Trust school.

The UKCIS advice outlines how to respond to an incident of nude and/or semi-nude images and/or videos being shared including:

- risk assessing situations
- safeguarding and supporting children and young people
- handling devices and images
- recording incidents, including the role of other agencies.
- informing parents and carers

The types of incidents which this advice covers are:

- a person under the age of 18 creates and shares nude and/or semi-nude images and/or videos of themselves with a child under the age of 18
- a person under the age of 18 shares nude and/or semi-nude images and/or videos created by another person under the age of 18 with a child under the age of 18
- a person under the age of 18 is in possession of nude and/or semi-nude images and/or videos created by another person under the age of 18.

### 3.6.3 Serious Violence

All staff should be aware of indicators, which may signal that a child is at risk from or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs.

There are several risk factors which increase the likelihood of involvement in serious violence, such as being male, having been frequently absent or permanently excluded from school, having experienced child maltreatment and having been involved in offending, such as theft or robbery.

Further advice on this issue is provided in the Home Office document '[Preventing youth violence and gang involvement](#)'.

### 3.6.4 Child Criminal Exploitation (CCE) including county lines and modern slavery

Criminal exploitation of children is a geographically widespread form of harm that is a typical feature of county lines criminal activity: drug networks or gangs groom and exploit children to carry drugs and money from urban areas to suburban and rural areas, market and seaside towns. Key to identifying potential involvement in county lines are missing episodes (both from home and school) when the victim may have been trafficked for the purpose of transporting drugs. Children are often recruited to move drugs and money between locations and can easily become trapped by this type of exploitation as gangs create drug debts and can threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

This activity can happen locally as well as across the UK; no specified distance of travel is required. For further information see 'Criminal exploitation of children and vulnerable adults: county lines' guidance.

It is important to note that the experience of girls who are criminally exploited can be very different to that of boys. The indicators may not be the same, however, professionals should be aware that girls are at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

Where the potential victim is under 18, a [National Referral Mechanism](#) (NRM) referral should be considered. This is usually undertaken by the Police or Local Authority. Child victims do not have to consent to be referred into the NRM and a safeguarding referral should also be considered alongside consideration of availability of local services/third sector providers who offer support to victims of county lines exploitation.

Like other forms of abuse and exploitation, county lines exploitation:

- can affect any child (male or female) under the age of 18 years
- can affect any vulnerable adult over the age of 18 years
- can still be exploitation even if the activity appears consensual
- can involve the use of coercion, intimidation and weapons to ensure compliance of victims
- can involve force and/or enticement-based methods of compliance and is often accompanied by violence or threats of violence
- can be perpetrated by individuals or groups, males or females, and young people or adults; and

- is typified by some form of power imbalance in favour of those perpetrating the exploitation. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources.

Further advice on this issue may be found in the Home Office document 'Criminal exploitation of children and vulnerable adults: county lines guidance'.

### 3.6.5 Mental health

All staff will be made aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation or other potentially traumatic adverse childhood experience. Such experiences can impact on a child's mental health, behaviour, attendance and progress at school. In such cases, only appropriately trained professionals will attempt to make a diagnosis of a mental health problem. Our staff, however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one. Where staff have a mental health concern, they have been advised to speak to the setting's Mental Health Lead, DSL or a deputy immediately. Reference will be made to the DfE guidance 'Mental Health and Behaviour in Schools' and guidance and principles contained in the PHE (now UKHSA) document 'Promoting children and young people's mental health and wellbeing'. Each Trust school has an identified mental health lead who is fully supported by the Senior Leadership Team.

### 3.6.6 Domestic abuse

Any single incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse who are, or have been, intimate partners or family members including teenage relationship abuse and child/adolescent to parent violence and abuse, regardless of gender, age, ethnicity, socio-economic status, sexuality or background and domestic abuse can take place inside or outside the home. The abuse can encompass, but is not limited to:

- Psychological or emotional abuse (including coercive and controlling behaviour)
- Physical or sexual abuse
- Violent or threatening behaviour
- economic/financial (access to basic resources like food and clothing)

Controlling or coercive behaviour is a pattern of abuse (on two or more occasions) that involves multiple behaviours and tactics used by a perpetrator to (but not limited to) hurt, humiliate, intimidate, exploit, isolate, and dominate the victim. It is an intentional pattern of behaviour used to exert power, control, or coercion over another person. Controlling or coercive behaviour is often committed in conjunction with other forms of abuse and is often part of wider pattern of abuse, including violent, sexual or economic abuse. Children can be used to control or coerce the victim, for example, by frustrating child contact and/or child arrangements, telling the children to call the victim derogatory names or to hit the victim, or by threatening to abduct the children. This pattern of abuse causes fear, serious alarm and/or distress which can lead to a substantial adverse effect on a victim's day-to-day life. This can have a significant impact on children and young people. More information about controlling or coercive behaviour, including the impact on children can be found in the Controlling or coercive behaviour: statutory guidance and the Domestic Abuse Act 2021: statutory guidance.

Children can be victims of, and be adversely affected by, domestic abuse in the context of their home life where domestic abuse occurs between family members, including where those being abusive do not live with the child and where the child may see, hear, or experience the effects of abuse and are related to either victim or perpetrator of the abuse, or either the victim or perpetrator of the abuse has parental responsibility for that child. Exposure to domestic abuse can have a detrimental and long-term impact on their health, wellbeing, development, and ability to learn. Young people can also experience domestic abuse within their own intimate relationships. This form of abuse is sometimes referred to as 'teenage relationship abuse'. Depending on the age of

the young people, this may not be recognised in law under the statutory definition of 'domestic abuse' (if one or both parties are under 16). However, as with any child under 18, where there are concerns about safety or welfare, child protection procedures should be followed and both young victims and young perpetrators will be offered support.

When identifying children who are or may be affected by domestic abuse/violence, we take account of the Domestic Abuse advice provided by local safeguarding partnerships.

Schools across the Trust are part of Operation Encompass. This is a police and education early intervention safeguarding partnership which supports children and young people who experience domestic abuse. Operation Encompass means that the police will share information about domestic abuse incidents with our school PRIOR to the start of the next school day when they have been called to a domestic incident. Once a Key Adult (DSL) has attended at an Operation Encompass briefing they will cascade the principles of Operation Encompass to any deputy DSL's.

Our schools make parents and communities aware that they are an Operation Encompass school. The Operation Encompass information is stored in line with all other confidential safeguarding and child protection information. The Key Adult has also led training for all school staff and LGB members about Operation Encompass, the prevalence of domestic abuse and the impact of this abuse on children. Trust leaders have also discussed how each school can support children following the Operation Encompass notification. School leaders and staff are aware that they must do nothing that puts the child/ren or the non-abusing adult at risk. All information is anonymised for reporting. The Key Adult has used the Operation Encompass Toolkit to ensure that all appropriate actions have been taken by the school.

The Operation Encompass Teachers' Helpline is available for all education staff to speak in confidence with an educational or clinical psychologist about how best to support children in their school who may be experiencing domestic abuse. The Helpline is available on 0204 513 9990 and is open from 8am to 1pm, Monday to Friday, term-time. Please note that calling the Helpline should not replace statutory safeguarding processes.

### 3.6.7 'Honour based' abuse (HBA)

Honour based abuse includes crimes which have been committed to protect or defend the honour of the family and/or the community, including Female Genital Mutilation (FGM), forced marriage (some perpetrators use perceived cultural practices to coerce a person into marriage), and practices such as breast ironing. This type of abuse in the context of preserving "honour" often involves a wider network of family or community pressure and can include multiple perpetrators. All forms of so-called HBA are abuse (regardless of motivation) and will be handled and escalated as such. Professionals in all agencies, and individuals and groups in relevant communities need to be alert to the possibility of a child being at risk of HBA, or already having suffered HBA.

Since October 2015, teachers (described in the legislation as those persons employed or engaged to carry out teaching work at schools and other institutions in England) have been under a mandatory duty to report personally to the Police cases where they discover that an act of FGM appears to have been carried out on a girl under 18. Unless the teacher has a good reason not to, they should still consider and discuss any such case with the School's DSL and involve the Local Safeguarding Hub as appropriate. Reference should also be made to the HM Government Multi agency statutory guidance on female genital mutilation.

Since February 2023 it has been a crime to carry out any conduct whose purpose is to cause a child to marry before their eighteenth birthday, even if violence, threats or another form of coercion are not used. This applies to non-binding, unofficial 'marriages' as well as legal marriages.

### 3.6.8 Preventing radicalisation

Protecting children from the risks of radicalisation, extremist ideologies and terrorism is seen as part of the Trust's wider safeguarding duties and is similar in nature to protecting children from other forms of harm and abuse. Since July 2015 schools have been under a statutory duty to have

'due regard to the need to prevent people from being drawn into terrorism'. This is known as the Prevent duty. Statutory Prevent guidance summarises the requirements on schools in terms of four general themes:

- Risk Assessment – schools will assess the risk of children being drawn into terrorism and have clear procedures in place for protecting children at risk of radicalisation and extremist ideologies
- Working in Partnership – we will ensure that our procedures take account of the policies and procedures of the Local Safeguarding Partnership.
- Staff training – schools will ensure that staff have access to Prevent awareness training to equip them with the skills and knowledge to identify children at risk of being drawn into terrorism and to challenge extremist ideas. As a minimum, the DSL will receive Prevent awareness training the detail of which will be cascaded to other staff/volunteers as appropriate.
- Online Safety – we will ensure that children are safe from terrorist and extremist material when accessing the internet in school. Further information on this is set out in the Online Safety Policy.

We value freedom of speech and the expression of beliefs/ideology as fundamental rights underpinning our society's values. Both pupils and teachers have the right to speak freely and voice their opinions. However, freedom comes with responsibility and free speech that is designed to manipulate the vulnerable or that leads to violence and harm of others goes against the moral principles in which freedom of speech is valued. Free speech is not an unqualified privilege; it is subject to laws and policies governing equality, human rights, community safety and community cohesion. We seek to protect children and young people against the messages of all violent extremism. Trust schools use resources taken from the Government sponsored website '[educateagainsthate](#)'. The DfE guidance '[Managing the risk of radicalisation in your education setting](#)' provides further information for those responsible for assisting in the reduction of all forms of extremist ideologies, radicalisation and terrorism.

We are aware of and understand when it is appropriate to make a referral to the Channel programme and/or the Safeguarding Hub.

### 3.6.9 Children missing from home, care or education

A child going missing from home, care or education can act as a vital warning sign of a range of safeguarding possibilities including abuse and neglect, which may include sexual abuse or exploitation and can also be a sign of child criminal exploitation – particularly involvement in county lines. It may also indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of FGM or risk of forced marriage. Each school has appropriate procedures and responses to children who are absent from school, particularly on repeat occasions and/or for prolonged periods to help identify the risk of abuse and neglect and to help prevent the risk of them being absent in future. These procedures are shared with all staff and other relevant adults, and new starters on Induction. We follow and adhere to the Local Safeguarding Partnership's guidance and procedures on [Children Missing from Home, Care or Education](#) and [DfE statutory guidance Children Missing Education](#).

School staff are aware of the school's unauthorised absence and children absent from education procedures.

In line with current best practice, we will request from parents at least 2 emergency contacts for each pupil which will allow us to contact a responsible adult in the event of a child being absent from school.

It is each school's responsibility to inform the Local Authority of any pupil who is removed from the school roll or who fails to attend school regularly or has been absent without the school's permission for a continuous period of 10 school days or more.

### 3.6.10 Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The DSL (and any deputies) are aware of contact details and referral routes into the Local Housing Authority so they can raise/progress concerns at the earliest opportunity.

- Northumberland County Council housing support can be contacted for advice. ([Click here to view their website](#)).
- [Cumberland Council have a list of contacts for local housing support](#).
- Westmorland and Furness have a list of [contacts for local housing support](#).

### 3.6.11 Upskirting

The Voyeurism (Offences) Act, which is commonly known as the Upskirting Act, came into force on 12 April 2019. 'Upskirting' is where someone takes a picture under a person's clothing (not necessarily a skirt) without their permission and or knowledge, with the intention of viewing their genitals or buttocks (with or without underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm. It is a criminal offence. Anyone of any gender can be a victim.

### 3.6.12 Other issues covered by Annex B – Keeping Children Safe in Education

In addition to issues outlined above, Annex B of [Keeping Children Safe in Education](#) also includes further detail on the following:

- Child abduction and community safety incidents
- Children and the court system
- Children with family members in prison
- Modern slavery and the National Referral Mechanism

## 4 What school staff should do if they have concerns about a child

If staff have concerns about a child, they should raise these with the DSL or a deputy. In situations of alleged abuse involving staff members (including supply staff, volunteers, contractors and other external providers using the school premises for the purposes of running activities for children), refer to the allegation's guidance at Section 9 and Whistleblowing at Section 12.

Wherever possible, there should be a conversation with the DSL (or a deputy), who will help staff decide what to do next. Options will then include:

- managing any support for the child internally via the school's own pastoral support processes
- an early help assessment; or
- a referral for statutory services.

All staff are required to report any concerns in writing. On occasions, a referral is justified by a single incident such as an injury or report of abuse. More often however, concerns accumulate over time and are evidenced by building up a picture of harm; it is crucial that staff record and pass on their concerns in accordance with these procedures to allow the DSL to build up a picture and access support for the child at the earliest opportunity. A reliance on memory without accurate and contemporaneous records of concern could lead to a failure to protect.

The DSL will decide whether to make a referral to the relevant Local Authority Safeguarding Hub, but it is important to note that where a staff member feels that their genuine concerns are not being addressed, they may refer their concerns to the Local Safeguarding Hub directly. Alternatively, the NSPCC have a whistleblowing advice line for professionals who have concerns over how child protection issues are being handled in either their or another organisation. Call 0800 028 0285 or email: [help@nspcc.org.uk](mailto:help@nspcc.org.uk).

Where a child and family would benefit from co-ordinated support from more than one agency (for example education, health, housing, police) there will be an inter-agency assessment. These assessments should identify what help the child and family require to prevent needs escalating to

a point where intervention would be needed via a statutory assessment under the Children Act 1989. The Early Help Assessment should be undertaken by a lead professional who could be a teacher, special educational needs co-ordinator, General Practitioner (GP), family support worker, and/or health visitor.

If, at any point, there is a risk of immediate serious harm to a child a referral should be made to the relevant Local Authority Safeguarding Hub immediately. If the child's situation does not appear to be improving the staff member with concerns should press for re-consideration. Concerns should always lead to help for the child at some point.

It is important for children to receive the right help at the right time to address risks and prevent issues escalating. Research and Serious Case Reviews have repeatedly shown the dangers of failing to take effective action. Poor practice includes failing to act on and refer the early signs of abuse and neglect, poor record keeping, failing to listen to the views of the child, failing to re-assess concerns when situations do not improve, sharing information too slowly and a lack of challenge to those who appear not to be acting.

Refer to the ['Action' flowchart](#) on page 22 of ['Keeping Children Safe in Education'](#). This is saved as a separate document on the Member's area of the Trust website.

## 5 Dealing with a report from a child

The way in which a member of staff talks to a child who discloses, or reports abuse could influence the evidence that is put forward if there are subsequent proceedings, and it is important that staff do not jump to conclusions, ask leading questions, or put words in a child's mouth. If a child makes a report to a member of staff or other adult working in school they should write a record of the conversation as soon as possible, stating exactly, in the child's words, what has been said, noting any action taken in cases of possible abuse. It is essential that all children are reassured that they are being taken seriously and that they will be supported and kept safe. This must be signed and include the day of the week, date, time and place of the report. All records must be held securely and are recorded using the CPOMS system. A [model Child Report/Concern Record](#) is available from the school Server (staff shared drive or similar), School office, Trust website Member's area or KAHSC website. A shorter, more concise format of an initial concern record may be used in the early stages with a decision being made by the DSL as to whether more detail is required by the staff member or other adult with concerns.

Once a disclosure has been made the staff member must inform the DSL, who will evaluate the assessment and concern record. Initial contact will be made with the Local Safeguarding Hub where necessary (see below).

The DSL can make a telephone referral to the relevant local authority Safeguarding Hub (see below) and confirm in writing via the online form where available. **The initial referral may be made by telephone but must be followed up via the on-line reporting system within 48 hours.**

If a referral needs to be made, or consultation with any other agency is deemed necessary, then we recognise that it is good practice to inform the parents and child of actions to be taken unless this puts the child at further risk of harm.

Within one working day of a referral being received, local authority children's social care should acknowledge receipt to the referrer and a social work qualified practice supervisor or manager should decide next steps and the type of response required. The DSL will follow up on a referral should that information not be forthcoming. If, after a referral, the child's situation does not appear to be improving the DSL will press for re-consideration using the Local Safeguarding Partnership's Escalation Policy and procedures (available online) to ensure their concerns have been addressed and, most importantly, that the child's situation improves.

***All adults in school have a shared responsibility to safeguard and promote the welfare of all children.***

The service enables callers to outline their concerns and the Local Safeguarding Hub will give advice and, if necessary, undertake assessments of need. KCSiE provides a [flowchart of actions to be taken by the school and other agencies where there are concerns about a child](#), a copy of which can

be downloaded from the school server (staff shared area or similar), the Trust website Member's area or KAHSC website. A paper copy should be available from the school office.

***These services are available at any time of day or night***

Staff must be aware that:

- it is not the responsibility of teachers, other staff or volunteers to investigate suspected cases of abuse
- they should not take any action beyond that agreed in the procedures established by the school and the Local Safeguarding Children Partnership (SCP)
- they cannot promise a child complete confidentiality. Instead, they must explain that they may need to pass information to other professionals to help keep the child or other children safe.

### **Listening to children**

Experience and consultation with children show that a child will talk about their concerns and problems to people they feel they can trust, and they feel comfortable with. This will not necessarily be a teacher. It is therefore essential that all staff and volunteers in a school or establishment know how to respond sensitively to a child's concerns, who to approach for advice about them, and the importance of not guaranteeing complete confidentiality.

DfE statutory guidance [Working Together to Safeguard Children](#) describes what children have said that they need:

- **Vigilance:** to have adults notice when things are troubling them
- **Understanding and action:** to understand what is happening; to be heard and understood; and to have that understanding acted upon
- **Stability:** to be able to develop an on-going stable relationship of trust with those helping them
- **Respect:** to be treated with the expectation that they are competent rather than not
- **Information and engagement:** to be informed about and involved in procedures, decisions, concerns and plans
- **Explanation:** to be informed of the outcome of assessments and decisions and reasons when their views have not met with a positive response
- **Support:** to be provided with support in their own right as well as a member of their family
- **Advocacy:** to be provided with advocacy to assist them in putting forward their views
- **Protection:** to be protected against all forms of abuse, exploitation, and discrimination and the right to special protection and help if a refugee

Children want to be respected, their views to be heard, to have stable relationships with professionals built on trust and to have consistent support provided for their individual needs. Trust Schools will seek to demonstrate to children that they provide them with a safe environment where it is okay to talk. Further information is available in the DfE statutory guidance 'Listening to and involving children and young people'.

Any member of staff or volunteer who is approached by a child wanting to talk will listen positively and reassure the child. School staff will work with the child and their families collaboratively when deciding how to support the child's needs. Special provision will be put in place to support dialogue with children who have communication difficulties, unaccompanied children, refugees and those children who are victims of modern slavery and/or trafficking and those who do not speak English or for whom English is not their first language. Staff will record the discussion with the pupil as soon as possible and act in accordance with the Trust's child protection procedures.

If a child chooses to disclose/report, the member of staff or other adult in the school **WILL:**

- be accessible and receptive
- listen carefully and uncritically at the child's pace

- take what is said seriously
- reassure the child that they are right to tell
- tell the child that this information must be passed on
- make a careful record of what was said.

Staff or other adults will **NEVER**:

- take photographs or examine an injury
- investigate or probe aiming to prove or disprove possible abuse – never ask leading questions
- make promises to children about confidentiality or keeping ‘secrets’
- assume that someone else will take the necessary action
- jump to conclusions or react with shock, anger or horror
- speculate or accuse anybody
- confront another person (adult or child) allegedly involved
- offer opinions about what is being said or about the person/s allegedly involved
- forget to record what has been said
- fail to pass the information on to the correct person
- ask a child to sign a written copy of the report.

**Vulnerable groups:** For children with communication/language difficulties or who use alternative/augmented communication systems, staff and other adults may need to take extra care to ensure that signs of abuse and neglect are identified and interpreted correctly, but concerns should be reported in the same manner as for other children. In some cases, it may be appropriate to seek the services of a professional interpreter.

## 6 Induction and training

All school-based staff including the Headteacher (where they are not the DSL) are required to undertake an appropriate level of safeguarding and child protection training (including in relation to online safety) at induction. This will include training in online safety which, amongst other things, will include an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring (see school Online Safety Policy and procedures for more information). This training which will be in line with advice from the safeguarding partners, will be updated regularly. We will train all staff to understand the Overarching Safeguarding Statement and this Child Protection Policy and procedures and ensure that all staff have up to date knowledge of safeguarding issues. In addition, all staff members will receive regular safeguarding and child protection updates (including online safety) (for example, via email, e-bulletins, staff meetings/briefings etc.), as required, but at least annually, to continue to provide them with relevant skills and knowledge to safeguard children effectively.

Appropriate training and regular updates will enable staff to identify signs of possible abuse and neglect at the earliest opportunity, and to respond in a timely and appropriate way including:

- significant changes in a child’s behaviour
- deterioration in a child’s general wellbeing/mental health
- unexplained bruising, marks or signs of possible abuse or neglect
- a child’s comments which give cause for concern
- any reasons to suspect neglect or abuse outside the setting, for example in the child’s home
- recognising inappropriate behaviour displayed by other members of staff, or any other person working with the children, for example, inappropriate sexual comments; excessive one-to-one attention beyond the requirements of their usual role and responsibilities; or inappropriate sharing of images
- internal school procedures, roles and responsibilities
- dealing with a report of abuse or neglect from a child
- Whistleblowing procedures as they refer specifically to Child Protection

- the Trust and School's Equality Policy and Objectives; and
- general health, safety and welfare issues.

Training is organised by the DSL in line with the Local Safeguarding Partnership guidance.

All staff have undertaken whole school Safeguarding training which will be refreshed every three years and updated on a regular basis by the DSL or other external source.

All staff and regular volunteers working in 'Regulated Activity' and directly with children are provided with a copy of Part one of 'Keeping Children Safe in Education – Safeguarding information for all staff, (or Annex A, where appropriate) DfE guidance 'What to do if you're worried a child is being abused'; the Local Safeguarding Partnership's Summary of Allegations Management Procedures Flow Chart; the school's Child Protection Policy and procedures, the Code of Conduct for staff and other adults and the procedures to follow should a child go missing from school, home or care.

Each school or workplace across the Trust will ensure that regular staff appraisals are carried out to identify any training needs, and secure opportunities for continued professional development for staff. We will support our staff to improve their qualification levels wherever possible.

The nominated Local Governing Body member will receive safeguarding training from a strategic perspective which will be updated regularly, to be disseminated to the rest of the Local Governing Body.

The School Leadership Team will ensure the DSL and the Deputy DSL attend the required safeguarding training when they first take up the role which will provide them with the knowledge and skills required to carry out the role effectively. The training will be updated every two years. In addition to formal training, as set out above, their knowledge and skills will be updated, (for example via e-bulletins, meeting other DSLs, or taking time to read and digest safeguarding developments) at regular intervals, but at least annually, to keep up with any developments relevant to their role.

Both the DSL and the Deputy have attended the required level of training as stated by the Local Safeguarding Partnership and this will be updated in line with recommended good practice.

The DSL will ensure that all new staff, volunteers and other adults are appropriately inducted as regards the school's internal safeguarding procedures, including those for Child Protection, communication lines and whistleblowing. This will also be a regular agenda item at staff meetings.

The DSL and Headteacher (if not one and the same) will provide an annual report to the Local Governing Body detailing safeguarding training undertaken by all staff and will maintain up to date registers of who has been trained and to what level. This, along with Induction Training and other safeguarding training including health and safety related training will be included in the school staff Training Plan.

## 7 Communication

We will ensure that staff have sufficient understanding and use of English to ensure the wellbeing of children in our care. We will ensure we are able to keep records in English, to liaise with other agencies in English, to summon emergency help, and to understand instructions such as those for the safety of medicines.

## 8 Record keeping

Staff will record any welfare concern that they have about a child on a Child Report/Concern Record, with a body map (where injuries have been observed) to be passed to the DSL. A model Child Report/Concern Record is available from the School office, or a digital copy should be made available through the school server (staff shared drive or similar) or can be accessed via the Trust website member's area or the KAHSC website. Records must be completed as soon as possible after the incident/event and must be signed and dated. It is good practice to also note the day of the week. Staff must be aware that their records might have to be used as evidence in court and must therefore be mindful of the need to distinguish fact from opinion. However, staff must not

attempt to investigate a situation themselves. Blank Child Disclosure/Concern Records are available in school. Where the school uses an electronic recording platform (i.e., CPOMS) the record will be made within the confidential tab of a child's record and will be completed by the DSL, or Deputy, as the staff member shares the disclosure. Only the DSL and Deputy have access to this log although concerns and disclosures are shared with staff on a need-to-know basis.

Child protection records are kept securely by the DSL and are shared on a 'need to know' basis only. They will be held separate from the child's education record. A separate child protection record will be made for each individual child, particularly where they are members of the same family with family concerns copied for each file. A chronology must be recorded in the file with the final entry being the date the child left the school or the date the file was transferred to a receiving school.

Records will include:

- a clear and comprehensive summary of the concern
- details of how the concern was followed up and resolved
- a note of any action taken, decisions reached and the outcome.

A record will be made of all incidents where pupils have expressed racist, homophobic, extremist or radical views which will be monitored at a senior level.

The Headteacher will be kept informed of any significant issues by the DSL.

When forwarding files to a receiving school, a chronology of the information, a record of the date of transfer and date of confirmation of receipt by the next school will be kept.

All child protection records will be forwarded (hand delivered) to a child's subsequent school under confidential and separate cover to the new DSL or Headteacher. Confidential files that must be posted (e.g., for out of County moves) are marked private and confidential and sent via the 'Special Delivery' postage route where its whereabouts at any time can be tracked. Notes held on digital systems (such as CPOMS) are transferred to a receiving school via a full CTF.

## 9 Safeguarding concerns or allegations against adults working with children

Sometimes allegations of inappropriate treatment of children are made against members of staff employed by the Trust including supply staff, volunteers, contractors or other external providers using the school premises for the purposes of running activities for children, rather than members of the child's family or other adults known to the child. If staff have a safeguarding concern or an allegation is made about another adult (as listed above) **harming or posing a risk of harm to children** then this should be referred to the Headteacher. Allegations are those which relate to members of staff, supply staff, volunteers and contractors who are currently working in any school or college regardless of whether the school or college is where the alleged abuse took place. Allegations against a teacher who is no longer teaching will be referred to the Police. Historical allegations of abuse will also be referred to the Police. Such allegations are dealt with in accordance with specific procedures published on the Local Safeguarding Partnership's website – [Allegations against staff or volunteers](#) and Part four of '[Keeping Children Safe in Education](#)' – Allegations made against/Concerns raised in relation to teachers, including supply teachers, other staff, volunteers and contractors.

If staff have a safeguarding concern or an allegation about another adult that **does not** meet the harm threshold, then this should be shared in accordance with the school low-level concerns procedures (see section 10 below) and the staff Code of Conduct.

If an allegation is made against an LGB member, the school will inform the Director with responsibility for Safeguarding and/or the CEO. Where an allegation is substantiated, we will follow the procedures to consider removing them from office.

Cumbria (prior to transition to Unitary Authorities) and Northumberland have produced a [Summary of Allegations Management Procedures Flowchart](#). A copy of this flowchart is provided to all individuals working in school and to new starters as part of their Induction.

The member of staff to whom the concern or allegation is reported will:

- treat the matter seriously
- ensure that, where necessary, the child receives appropriate medical attention
- make a written record of the information using the child's/parent's own words, including when the alleged incident took place; who was present; and what happened
- sign and date the written record
- report the matter immediately to the Headteacher or deputy in their absence. Where the Headteacher is the subject of a concern or allegation, or in a situation where there is a conflict of interest in reporting the matter to the Headteacher, the concern or allegation will be reported to the Chair of the LGB. In all instances, the most senior person will be the allocated the role of 'Case Manager'. Confidentiality must be maintained throughout.

There are two aspects to consider when an allegation is made:

- **Looking after the welfare of the child** - the DSL (or a deputy) is responsible for ensuring that the child is not at risk and referring cases of suspected abuse to the LA Children's Social Care.
- **Investigating and supporting the person subject to the allegation** - the Case Manager will discuss with the LADO, the nature, content and context of the allegation, and agree a course of action.

When dealing with allegations, we will:

- apply common sense and judgement
- deal with allegations quickly, fairly and consistently; and,
- provide effective protection for the child and support the person subject to the allegation.

### 9.1 Initial action by the Case Manager

Before contacting the Local Authority appointed Local Authority Designated Officer (LADO) the Case Manager or other senior leader will conduct basic enquiries in line with local procedures to establish the facts and to help them determine whether there is any foundation to the allegation, being careful not to jeopardise any future Police investigation.

Following the completion of basic enquiries, the Case Manager will discuss the concern or allegation with the LADO and within **1 working day**. The purpose of an initial discussion is for the LADO and the Case Manager to consider the nature, content and context of the concern or allegation and agree a course of action. To inform the initial course of action, the following may be required:

- written details of the concern or allegation - signed and dated by the person receiving the initial concern or allegation report
- any other information and names of any potential witnesses, surveillance systems etc.
- a chronology of significant events
- information already known about those involved, including previous history, other concerns or allegations made by the child or family and the individual's current contact with children
- checks on any historic incident(s) or logbooks.

There may be situations when the Case Manager will want to involve the Police immediately, for example if the person is deemed to be an immediate risk to children or there is evidence of a possible criminal offence. Where there is no such evidence, the Case Manager should discuss the concern or allegation with the LADO to help determine whether Police involvement is necessary.

To report a concern in writing to the LADO, the notification form (available from the Cumbria SCP website for use by schools in either Cumberland Council or Westmorland and Furness Council or through the Northumberland County Council website) must be used. The form can also be accessed by the following link: **[LADO - 'Position of Trust' Referral Form](#)**.

Completed forms must be sent to the relevant Local Safeguarding Partnership or Local Authority Designated Officer using any of the following methods.

**CONTACT THE TEAM IN THE AUTHORITY IN WHICH THE CHILD OR FAMILY RESIDES**

Email: lado@westmorlandandfurness.gov.uk

**Postal Address (both)**

LADO,  
Safeguarding Hub,  
Skirsgill Depot,  
Penrith,  
Cumbria  
CA10 2BQ

Allegations are managed in accordance with the Local Safeguarding Partnership’s Procedures Manual, available online.

The Case Manager will contact the LADO if an allegation is made against a member of staff or another adult (including supply staff, volunteers, contractors or an individual or organisation using the school premises for the purposes of running activities for children e.g., community groups, sports associations or providers that run extra-curricular activities) where their actions may have met the ‘harm threshold’ and the individual is alleged to have:

- behaved in a way that has harmed a child, or may have harmed a child, and/or
- possibly committed a criminal offence against or related to a child, and/or
- behaved towards a child or children in a way that indicates s/he may pose a risk of harm to children, and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

The advice of the LADO can also be sought if there is uncertainty as to whether a referral should be made or for example there are concerns about the staff member’s conduct outside work which may raise concerns about their suitability to work with children. This is known as transferrable risk.

When to inform the individual of the allegation will be considered carefully on a case-by-case basis with guidance as required from the LADO, and if appropriate LA Children’s Social Care and the Police. The Case Manager will inform the accused person about the concern or allegation as soon as possible after consulting with the LADO. However, where a strategy discussion is needed, or Police or the LA Children’s Social Care services need to be involved, the Case Manager will not do that until those agencies have been consulted and have agreed what information can be disclosed to the accused.

The Case Manager will appoint a named representative to keep the person who is the subject of the concern or allegation informed of the progress of the case and consider what other support is appropriate for the individual.

The welfare of a child is paramount, and this is the prime concern in terms of investigating an allegation against a person in a position of trust. However, when an allegation or safeguarding concern is being investigated it is likely to be a very stressful experience for the adult subject of the investigation, and potentially for their family members. We will offer appropriate welfare support at such a time and recognise the sensitivity of the situation. Information is confidential and will not

ordinarily be shared with other staff or with children or parents who are not directly involved in the investigation.

Parents of a child or children involved will be told about the concern or allegation as soon as possible if they do not already know of it. However, where a strategy discussion is required, or Police or the LA Children's Social Care services need to be involved, the Case Manager will not do so until those agencies have been consulted and have agreed what information can be disclosed to the parents. Parents will also be kept informed about the progress of the case, only in relation to their child – no information can be shared regarding the staff member and informed of the outcome where there is not a criminal prosecution, including the outcome (in confidence) of any disciplinary process.

Parents will also be made aware of the requirement to maintain confidentiality about any concern or allegation made against teachers or other staff whilst investigations are ongoing. Where parents wish to apply to the court to have reporting restrictions removed, they will be advised to seek legal advice.

## 9.2 Initial consideration by the Case Manager and LA appointed Designated Officer (LADO)

The Trust Board of Directors, as the employer, have a duty of care to their employees. Where the Trust is not the employer of an individual, they still have a responsibility to ensure concerns or allegations are dealt with appropriately and that they liaise with relevant parties. It is essential that any allegation of abuse in a school is dealt with very quickly, in a fair and consistent way that provides effective protection for the child and, at the same time supports the person who is the subject of the allegation.

The LADO will establish, in discussion with the Case Manager that the allegation is within the scope of the Local Safeguarding Partnership's procedures and may require further investigation. There may be up to 3 strands considered as part of this process and the discussion will centre upon whether there is a need for:

- a Police investigation because a crime has or may have been committed
- enquiries and assessment by social care to determine if services or emergency actions are required
- consideration by the employer of disciplinary action in respect of the individual.

If agreement is reached that the criteria for action by the Police or Children's Services has been established, the LADO will contact the LA Children's Social Care to ensure a formal 'strategy meeting' is set up involving Children's Services Social Care and the Police. Where the Police are involved, wherever possible the school will ask the Police to obtain consent from the individuals involved to share their statements and evidence for use in the employer's disciplinary process. If only the last criterion is met the LADO will provide advice to the Case Manager on the subsequent management of the case to a satisfactory conclusion within the framework of the Trust's procedures for discipline and conduct.

The LADO's role is not to investigate the allegation, but to ensure that an appropriate investigation is carried out, whether that is by the Police, LA Children's Social Care, the Trust/school or a combination of these.

## 9.3 Suspension

Suspension will never be an automatic step for staff subject to allegations; each case will be dealt with on its merits taking into consideration factors such as the seriousness of the allegation, the potential risks to children and whether it is possible to investigate the allegation whilst the person is still at work. The strategy meeting will make a recommendation to the setting if one is required but the ultimate decision rests with the Case Manager. The decision to suspend will be taken on a

case-by-case basis having undertaken a risk assessment about whether the person poses a risk of harm to children. All options to avoid suspension will be considered prior to taking that step.

The decision on **suspension/transfer to alternative duties** of the staff member subject to the allegation is the responsibility of the Case Manager having consulted with their HR adviser and the LADO. School leaders will ensure that they provide effective support for anyone facing an allegation and provide them with a named contact if they are suspended.

Additional information on suspension or those subject to a Secretary of State interim Prohibition Order is available in Part four of '[Keeping Children Safe in Education](#)'.

If the Case Manager is concerned about the welfare of other children in the community or the individual's family, those concerns will be reported to the LADO, LA Children's Social Care or the Police as required.

#### 9.4 Subsequent actions

The detailed procedures that need to follow this initial consideration are available on the Local Safeguarding Partnership's website. The Case Manager is expected to keep the LADO advised of progress especially where it has been agreed that the matter should be dealt with within the framework of the Trust's disciplinary process (see above).

The following definitions will be used when determining the outcome of allegation investigations:

- **Substantiated:** there is sufficient evidence to prove the allegation
- **Malicious:** there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive or cause harm to the person subject of the allegation
- **False:** there is sufficient evidence to disprove the allegation
- **Unsubstantiated:** there is insufficient evidence to either prove or disprove the allegation. The term, therefore, does not imply guilt or innocence; or
- **Unfounded:** to reflect cases where there is no evidence or proper basis which supports the allegation being made.

A referral must also be made to the Disclosure and Barring Service (DBS) when concerns are raised that a person has caused harm or poses a future risk of harm to children/vulnerable adults – See Section 24 for further details. *If a member of staff or a volunteer is removed or dismissed because they have harmed a child or vulnerable adult, or the school would have done so if the individual had not left, the Disclosure and Barring Service must be informed.* [How to refer to the DBS.](#)

The school will also consider whether a referral to the Teaching Regulation Authority (TRA) is appropriate where we dismiss or cease to use the services of a teacher because of serious misconduct or might have dismissed them or ceased to use their services had they not left first.

Details of allegations that are found to have been malicious will be removed from personnel records and those allegations which were proved to be false, unsubstantiated or malicious will not be included in an employer reference. However, for all other allegations we will hold a clear and comprehensive summary of the allegation and how it was followed up and resolved. This will enable accurate information to be given in response to any future request for a reference, where appropriate.

**All staff will be made aware that it is a disciplinary offence not to report concerns about the conduct of a colleague that could place a child at risk. When in doubt – consult.**

#### 9.5 Resignations and settlement agreements

If the accused person resigns, or ceases to provide their services, this will not prevent an allegation being followed up in accordance with Part four of the DfE guidance [Keeping Children Safe in Education](#).

'Settlement or compromise agreements' will not be used in cases of refusal to cooperate or resign before the person's notice period expires. Such an agreement will not prevent a thorough police investigation where that is deemed appropriate.

## 9.6 Record keeping

We have an obligation to preserve records which contain information about concerns or allegations of sexual abuse for the term of the Independent Inquiry into Child Sexual Abuse (IICSA). All other records will be retained at least until the accused has reached normal pension age or for a period of 10 years from the date of the concern or allegation report if that is longer.

Details of allegations following investigation that are found to have been malicious or false will be removed from personnel records unless the individual gives their consent for retention of the information. For all other allegations i.e., substantiated, unfounded and unsubstantiated, the following information will be kept on the file of the person accused:

- a clear and comprehensive summary of the allegation
- details of how the allegation was followed up and resolved
- a note of any action taken, and decisions reached, and the outcome i.e., substantiated, unfounded or unsubstantiated
- a copy provided to the person concerned, where agreed by the LA Children's Social Care or the Police; and,
- a declaration on whether the information will be referred to in any future reference.

For more detailed guidance on how to respond to allegations against staff, supply staff, volunteers, contractors or other external providers using the school premises for the purposes of running activities for children, please refer to the Local Safeguarding Partnership guidance – [Whistleblowing](#), Section 12 below and Part four of [Keeping Children Safe in Education](#).

## 9.7 Supply teachers and all contracted staff

Whilst schools across the Trust are not the employer of supply teachers or other contracted staff, we will ensure that concerns or allegations (no matter how small) are dealt with properly. In no circumstances will we decide to cease to use supply/contracted staff due to safeguarding concerns or allegations, without finding out the facts and liaising with the Local Authority Designated Officer (LADO) to determine a suitable outcome. Where the individual about whom the concern or allegation has been made is employed by an Agency or Agencies where the supply teacher is working across several schools, the Local Governing Body will discuss with the Agency/ies whether it is appropriate to suspend the supply teacher. The Agency will be fully involved in the process which will usually be led by the relevant school and the LADO since the individual, whilst not employed by the Good Shepherd Trust is under the supervision, direction and control of the Trust's Board of Directors and Local Governing Body when working in the school. The allegations management meeting which is often arranged by the LADO should address issues such as information sharing, to ensure that any previous concerns or allegations known to the agency or agencies are considered during the investigation.

We will inform any supply agency of our process for managing allegations, taking account of the agency's Policies and their duty to refer to the DBS as personnel suppliers.

## 9.8 Non-recent allegations

Where an adult makes an allegation to a school that they were abused as a child, the individual will be advised to report the allegation to the Police. Non-recent allegations made by a child, will be reported to the LADO in line with the local authority's procedures for dealing with non-recent allegations. The LADO will coordinate with the LA Children's Social Care and the Police. Abuse can be reported no matter how long ago it happened.

## 10 Concerns or allegations that do not meet the harm threshold (low-level concerns)

As part of our whole Trust approach to safeguarding we aim to promote an open and transparent culture in which all concerns about all adults working in or on behalf of the Trust and its schools (including supply teachers, volunteers, contractors and external providers using the school premises for the purposes of running activities for children) are dealt with promptly and appropriately.

We believe that creating a culture in which **all** concerns about adults (including allegations that do not meet the harm threshold (see Page 34-35 above) are shared responsibly and with the right person, recorded and dealt with appropriately, is critical. If implemented correctly, this will encourage an open and transparent culture; enable us to identify inappropriate, problematic or concerning behaviour early; minimise the risk of abuse; and ensure that adults working in or on behalf of the Trust are clear about professional boundaries and act within these boundaries, and in accordance with our ethos and values of both the Trust as a whole and individual Schools.

A low-level concern does not mean that it is insignificant. It is any concern – no matter how small, and even if no more than causing a sense of unease or a ‘nagging doubt’ - that an adult working in or on behalf of the Trust or school may have acted in a way that:

- is inconsistent with the Staff Code of Conduct, including inappropriate conduct outside of work, and/or
- does not meet the harm threshold (see page 34-35 above) or is otherwise not considered serious enough to consider a referral to the LADO.

All low-level concerns about adults working in the Trust or school regardless of how insignificant they may be perceived to be, should be reported initially to the Headteacher or DSL. Where the concern relates to the Headteacher or in a situation where there is a conflict of interest in reporting the matter to the Headteacher, the concern should be referred to the Chair of the LGB.

Further information on low-level concerns, examples and record keeping can be found in the Staff Code of Conduct.

### 10.1 Responding to low-level concerns

If the concern has been raised via a third party, the Headteacher will collect as much evidence as possible by speaking directly to the person who raised the concern (unless it has been raised anonymously) and to the individual involved and any witnesses.

Any information collected will help to categorise the type of behaviour and determine what further action may need to be taken. The rationale for the action taken and the decisions which led to the action will be recorded. A flowchart outlining the possible response to managing low-level concerns is available on the school server (staff shared drive or similar), through the Member’s area of the Trust website or via the KA Hub.

Low-level concerns which are shared about supply staff, contractors and other external providers using the school premises for the purposes of running activities for children will, where relevant, be notified to their employers/National Governing Body, so that any potential patterns of inappropriate behaviour can be identified.

## 11 Managing allegations against other pupils (child on child abuse)

As well as complying with Keeping Children Safe in Education Part five: Child on child sexual violence and sexual harassment, the trust has a separate Policy and procedures on child on child abuse which include sexual violence and sexual harassment between children to which reference will be made when dealing with any form of child on child abuse. Additional information on this issue is also available in Annex B of Keeping Children Safe in Education.

All staff are made aware that safeguarding issues can manifest themselves via child-on-child abuse and will be trained in the procedures to follow if there are incidents of sexual violence or sexual harassment between pupils.

**We have a zero-tolerance approach to sexual violence and sexual harassment. It is never acceptable and will not be tolerated.** All staff have been made aware that even if there are no reports in their setting, it does not mean it is not happening – it may be the case that it is just not being reported. It is essential that all victims are reassured and that they are being taken seriously and that they will be supported and kept safe. If staff have any concerns regarding any form of child-on-child abuse, they must speak to the DSL (or a deputy).

**All** concerns, discussions, decisions and reasons for decisions relating to child-on-child abuse and/or sexual violence and sexual harassment between children will be recorded (written or electronic).

### 11.1 Safeguarding concerns or allegations

Across the Trust we recognise that children can abuse other children, and that it can happen both inside and outside of school and online. Allegations may be made against pupils by others in the school, which are of a child protection nature. Child protection issues raised in this way may include physical abuse, emotional abuse, sexual abuse and sexual exploitation. It is likely that to be considered a child protection allegation against a pupil, some of the following features will be found.

The concern or allegation:

- is made against an older pupil and refers to their behaviour towards a younger pupil or a more vulnerable pupil
- is of a serious nature, possibly including a criminal offence
- raises risk factors for other pupils in the school
- indicates that other pupils may have been affected by this pupil
- indicates that young people outside the school may be affected by this pupil.

The Child-on-Child Abuse Policy and Procedures provide full details of:

- What is Child on Child Abuse
- Contextual Safeguarding
- Types of Abuse
- Minimising the risk of child-on-child safeguarding concerns
- Managing a Disclosure/Report
- Gathering the facts
- Considering Confidentiality and Anonymity
- Responding to the Disclosure/Report
- Responding to Unsubstantiated, unfounded, false or malicious reports
- Undertaking individual risk and needs assessments
- Safeguarding and supporting the victim
- Safeguarding and supporting the alleged perpetrator
- Sanctions
- Whole School approach to prevention

### 11.2 Harmful sexual behaviour

Children's sexual behaviour exists on a wide continuum, ranging from normal and developmentally expected, to inappropriate, problematic, abusive and violent. Problematic, abusive and violent sexual behaviour is developmentally inappropriate and may cause developmental damage. We use the umbrella term "harmful sexual behaviour" (HSB). HSB can be an indicator that a child is or has experienced abuse. It is likely that their natural healthy sexual development has been disrupted in some way. HSB can occur online and/or face-to-face and can also occur simultaneously between the two. The Trust will use the NSPCC Hackett Sexualised Behaviour Continuum alongside the

knowledge/context of the child to categorise and determine the correct response. Each DSL has a good understanding of HSB and all reports will be made to the setting's DSL and/or deputy.

Response to harmful sexual behaviour by staff should be effective and proportionate. Staff will use the NSPCC SDSE method (see below) when responding to an incident:

**Stop** – move their hand away; distraction; change the environment

**Define** – (specifically) the unwanted behaviour

**State** – Our private parts are private (link pantosaurus and school rules)

**Enforce** – Consequences should not shame or humiliate the child

## 12 Whistleblowing

Staff must acknowledge their individual responsibility to bring matters of concern to the attention of senior management and/or relevant agencies. Although this can be difficult this is particularly important where the welfare of children may be at risk.

Adults working in the school may be the first to recognise that something is wrong but may not feel able to express their concerns out of a feeling that this would be disloyal to colleagues or for fear of harassment or victimisation. These feelings, however natural, must never result in a child or young person continuing to be unnecessarily at risk. Staff must remember that it is often the most vulnerable child who is targeted. These children need adults they can trust to safeguard their welfare.

***DON'T THINK WHAT IF I'M WRONG - THINK WHAT IF I'M RIGHT!***

### Reasons for whistleblowing:

- Everyone has a responsibility for raising concerns about unacceptable practice or behaviour.
- To prevent the problem worsening or widening.
- To protect or reduce risks to others.
- To prevent becoming implicated yourself.

### What stops people from whistleblowing?

- Fear of starting a chain of events which spirals out of control.
- Disrupting the work or project.
- Fear of getting it wrong.
- Fear of repercussions or damaging careers.
- Fear of not being believed.

### How to raise a concern:

- Voice concerns, suspicions or uneasiness as soon as possible. The earlier a concern is expressed the easier and sooner action can be taken.
- Try to pinpoint exactly what practice is causing concern and why.
- Approach the Headteacher or Senior Leader.
- If the concern is related to the Headteacher, the Chair of the Local Governing Body should be contacted or, if it is felt that the issue needs to be reported to someone outside the school, contact the Local Safeguarding Hub.
- Staff should ensure they get a satisfactory response - don't let matters rest. If a staff member feels their genuine concerns are not being addressed, the issue should be referred to the Local Safeguarding Hub.

- Ideally, concerns should be put in writing, outlining the background and history, giving names, dates and places wherever possible.
- **A member of staff is not expected to prove the truth of an allegation but will need to demonstrate sufficient grounds for the concern.**

### **What happens next?**

- The individual reporting the concerns will be given information on the nature and progress of any enquiries.
- The employer has a responsibility to protect individual members of staff from harassment or victimisation.
- No action will be taken against an individual if the concern proves to be unsubstantiated, unfounded or false and was raised in good faith.
- Malicious allegations may be considered as a disciplinary offence. The LADO and Case Manager should consider whether the child and/or the person who made the allegation needs help or may have been abused by someone else.

### **Self-reporting:**

There may be occasions where a member of staff has a personal difficulty, perhaps a physical or mental health problem, which they know to be impinging on their professional competence. Staff have a responsibility to discuss such a situation with their line manager so professional and personal support can be offered. Whilst such reporting will remain confidential in most instances, this cannot be guaranteed where personal difficulties raise concerns about the welfare or safety of children.

### **Further advice and support:**

It is recognised that whistleblowing can be difficult and stressful. Advice and support is available from senior managers, HR provider and/or your professional or trade union.

*"Absolutely without fail - challenge poor practice or performance. If you ignore or collude with poor practice it makes it harder to sound the alarm when things go wrong"* (reproduced with acknowledgement to "Sounding the Alarm" – Barnardos).

**Reference should be made to the Trust's Whistleblowing Policy. Copies of this should be available to staff members.**

## **13 Supporting pupils with medical conditions**

Each school implements the Trust's Policy and procedures on Supporting Pupils with Medical Conditions. This includes systems for obtaining information about a child's medical needs and for keeping this information up to date. Training is provided for staff where the administration of medicine requires medical or technical knowledge. Medicines will not usually be administered unless they have been prescribed for a child by a GP, dentist, nurse or pharmacist (medicines containing aspirin will only be given if prescribed by a GP).

Medicine (both prescription and non-prescription) will only be administered to a child where written permission for that particular medicine has been obtained from the child's parent. We keep a written record each time a medicine is administered to a child, and, in the case of emergency pain-relief, where prior consent has been obtained, inform the child's parents on the same day, or as soon as reasonably practicable.

## **14 Alternative provision**

Where the school places a pupil with an alternative provision provider, we continue to be responsible for the safeguarding of that pupil and will seek to ensure that the provider meets the needs of the pupil. We will obtain written confirmation from the alternative provider that appropriate safeguarding checks have been carried out on individuals working at the establishment i.e., those checks that the school would otherwise perform in respect of its own staff.

## 15 Working with other agencies

The Trust recognises and is committed to its responsibility to work with other professionals and agencies both to ensure children's needs are met and to protect them from harm. We will endeavour to identify those children and families who may benefit from the intervention and support of external professionals and will seek to enable referrals (in discussion with parents) as appropriate. Information on the [Early Help Assessment process](#) is available via the Local Safeguarding Partnership website.

Schools are not the investigating agency when there are child protection concerns and thus, the school will pass all relevant cases to the statutory agencies, which we will support in undertaking their roles. Staff should understand that alongside this, the school may have a crucial role in supporting the child whilst investigations and assessments take place.

Our schools recognise the importance of multi-agency working and will ensure that staff are enabled to attend relevant safeguarding meetings, including Child Protection Conferences, Core Groups, Strategy Meetings, Child in Need meetings and Early Help/Team around the Family or Team around the Child meetings.

Our schools also work with local partners, families and communities in our efforts to ensure our school understands and embraces our local context and values in challenging extremist views and to assist in the broadening of our pupil's experiences and horizons. We will help support pupils who may be vulnerable to such influences as part of our wider safeguarding responsibilities offering support and assistance from external agencies where required.

The School Leadership Team and DSL will work to establish strong and co-operative relationships with relevant professionals in other agencies.

## 16 Partnership with parents

Trust schools share a purpose with parents to educate, keep children safe from harm and to have their welfare promoted. We are committed to working with parents positively, openly and honestly.

Trust schools ensure that all parents are treated with empathy respect, dignity and courtesy. We respect parents' rights to privacy and confidentiality and will not share sensitive information unless we have consent, or it is necessary to do so to protect a child.

While collaborative relationships between the school and parents are important, the wishes and feelings of the child and what is in their best interest remain central to decision making. Each school will, in most circumstances, endeavour to discuss all concerns about their children with parents. There may, however, be exceptional circumstances when the school will discuss concerns with the LA Children's Social Care and/or the Police without parental knowledge. Each Trust school will, of course, always aim to maintain a positive relationship with all parents and will take account of the families' background, ethnicity, religion, financial situation, ability, education, sex, ages and sexual orientation, and potential barriers these create in seeking and accessing help and support. As well as being available to view on the Trust website and each school's own website, this Child Protection Policy and procedures is available on request.

Where appropriate, material provided to children, parents and families will be made accessible and translated into their first language if necessary.

As a Trust we will work with other practitioners to empower parents to participate in decision-making to help, support and protect children by:

- Creating a culture of "no surprises", for example, making parents and carers aware of who will attend meetings and discussions, if the child will be invited to participate and the format of the meeting or discussion
- Explaining that parents can bring a family member, a friend or supporter to meetings

- Giving parents adequate preparation at every stage, relevant information, a safe and appropriate environment for participation and suitable access arrangements
- Signposting parents to sources of help and support available locally or through the local authority
- Helping parents to understand what the issues are and how these impact on the child, what decisions could be made, what changes need to be made, why and how, timescales and possible outcomes.

## 17 Professional confidentiality and information sharing

Safeguarding and child protection information is confidential and personal. Other than the agreed communication lines in school, it is for the DSL(s) to decide what information needs to be shared, with whom, how and when, and whether consent needs to be gained for this process. All Trust staff will aim to be as transparent as possible by telling families what information we are sharing and with whom, where it is safe to do so. If in any doubt, the DSL can seek advice from the Local Safeguarding Hub (0333 240 1727). Further guidance on Information Sharing can be found in the DfE document [Data protection: a toolkit for schools](#) (Annex 10.1), the DfE document '[Information Sharing – Advice for Safeguarding Practitioners](#)' and the '[Flowchart of When and How to Share Information](#)' from the same document. The flowchart can be found as a separate document on the Member's area of the Trust website.

Staff should not assume a colleague, or another professional will act and share information that might be critical in keeping children safe. Fears about sharing information **must not** be allowed to stand in the way of the need to safeguard and promote the welfare of children. Rapid reviews and child safeguarding practice reviews have highlighted that missed opportunities to record, understand the significance of, and share information in a timely manner can have severe consequences for children. Sharing information about any adults with whom that child has contact, which may impact the child's safety or welfare, is also critical.

We will be particularly alert to the importance of sharing information when a child moves from one local authority into another, due to the risk that knowledge pertinent to keeping a child safe could be lost.

We are aware that among other obligations, the Data Protection Act (DPA) and the UK GDPR places duties on organisations and individuals to process personal information fairly and lawfully and to keep the information we hold safe and secure. Neither the DPA nor UK GDPR prevent, or limit, the sharing, or withholding, of information for the purposes of keeping children safe. Information which is sensitive and personal will be treated as 'special category personal data'. Legal and secure information sharing between schools, LA Children's Social Care and other agencies is essential. It would be legitimate to share information without consent where there is good reason to do so, and that the sharing of information will enhance the safeguarding of a child, but it is not possible to gain consent; it cannot be reasonably expected that a practitioner gains consent; and, if to gain consent would place a child at risk. When parents do not give permission to share information staff must consider if a child is at risk of harm, before a decision to not share information is made; when there is disparity between parent's views and those of their children, professionals must maintain focus on the child. Fears about sharing information **must not** be allowed to stand in the way of protecting the safety of children. As with all data sharing, appropriate organisational and technical safeguards will be in place.

Under the Data Protection Act 2018 and the UK GDPR, schools are permitted to withhold pupils' personal data where, for example, a child is in a refuge or other form of emergency accommodation and to provide the information would place a child at risk.

If a member of staff needs to seek advice about a safeguarding situation for a child independently for the purposes of keeping a child safe (specifically with the Children's Services Safeguarding Team), it is appropriate for the detail to be discussed, although the staff member may choose to maintain the anonymity of the child whilst initial consultation takes place.

All staff are made aware that they cannot keep 'secrets' and absolute confidentiality with children, and that if a child reports abuse or gives information that suggests they may be at risk, this **MUST** be passed on to the DSL as soon as possible. The child should be told who their report will be shared with and what will happen next. If the child does not give their consent to share information, staff may still lawfully share it and advice sought from the DSL in all cases. Ultimately, the DSL (or a deputy) will have to balance the victim's wishes against their duty to protect the victim and/or other children. Consideration will be given to the 'Gillick competency and Fraser guidelines' in situation where there may be a need for staff to balance listening to the child's wishes and the responsibility to keep them safe. Where this situation arises, the member of staff **must** speak to the DSL for further advice.

## 18 Curriculum and staying safe.

Schools play an essential role in helping children to understand what appropriate child and adult behaviour is; what is 'safe'; what constitutes a healthy relationship both online and offline; to recognise when they and others close to them are not safe; and how to seek advice and support when they are concerned.

Trust staff recognise that we all play a crucial role in preventative education and must continue to work to create a culture of zero tolerance for sexism, misogyny/misandry, homophobia, biphobia and sexual violence/harassment. Collectively we have a Trust wide set of values and standards that are supported and enhanced by the values and standards of each individual school: living and modelling these values every day, supported by the Behaviour Policy and individual pastoral support strategies in our schools' staff across the Trust are demonstrating how our schools can be communities free from abuse and harassment.

Staff across the Trust will ensure that children are taught about how to keep themselves and others safe, including online and recognise that effective education will be tailored to the specific needs and vulnerabilities of individual children, including children who are victims of abuse, and children with SEND.

Trust schools will include relevant safeguarding topics as part of Relationships and Sex Education which is a compulsory part of the curriculum. The DfE has published statutory guidance in relation to relationships education and the Trust's policy for RSE curriculum development and delivery should be followed. This policy allows each school to choose the framework and delivery model that best suits their setting to ensure that the RSE curriculum is delivered in regularly timetabled lesson, is inclusive and appropriate to the age and stage of development of the pupils. See DfE 'Teaching about relationships, sex and health' guidance.

Trust school's will use their individual RSE and PSHE curriculums to provide opportunities for increasing self-awareness, self-esteem, social and emotional understanding, assertiveness and decision making so that pupils have a range of contacts and strategies to ensure their own protection and understand the importance of protecting others. Systems have been established to support the empowerment of children to talk to a range of staff when they are in difficulty and to raise comments, complaints and feedback about their school experience and any other external issues which affect their wellbeing. Children at our schools will be listened to, heard and their concerns will be taken seriously and acted upon as appropriate. Records will be kept of reported incidents in line with guidance.

We encourage the safe use of external agencies or speakers to enrich the experiences of our pupils. We will, however, positively vet those external agencies, individuals or speakers who are invited by the school staff or by the pupils themselves to ensure that we do not unwittingly use people or organisations that contradict each other with their messages or that are inconsistent with, or are in complete opposition to, the Trust or school's values and ethos.

Schools will assess the suitability and effectiveness of input from people or organisations to ensure that:

- any messages communicated to pupils support fundamental British Values
- any messages communicated to pupils are consistent with the ethos of the Trust and schools and do not marginalise any communities, groups or individuals
- any messages communicated to pupils do not seek to glorify criminal activity or violent extremism or seek to radicalise pupils through extreme or narrow views of faith, religion or culture or other ideologies
- activities are properly embedded in the curriculum and clearly mapped to schemes of work to avoid contradictory messages or duplication
- activities are matched to the needs of pupils.

We recognise, however, that the ethos of our schools is to encourage pupils to understand opposing views and ideologies, appropriate to their age, understanding and abilities, and to be able to actively engage with them in informed debate, and we may use external agencies or speakers to facilitate and support this.

## 19 Supervision and support

Any member of staff affected by issues arising from concerns for a child's welfare or safety can seek support from the DSL or a deputy DSL.

All Early Career Teachers (ECTs) and classroom assistants have a mentor or co-ordinator with whom they can discuss concerns including the area of child protection, however, all concerns MUST be reported to the DSL without delay.

The DSL can put staff and parents in touch with outside agencies for professional support if they so wish.

We will put appropriate arrangements in place for the supervision of staff who have contact with children and families. Effective supervision provides support, coaching and training for the staff member/volunteer and promotes the interests of children. Our Supervision arrangements foster a culture of mutual support, teamwork and continuous improvement which encourages the confidential discussion of sensitive issues. Supervision for DSLs across the Trust is available through the Trust's School Improvement Consultants.

The key functions of supervision are:

### 19.1 Performance management

- Ensure that performance and practice, including safeguarding, is competent, accountable and soundly based in research and practice knowledge.
- Ensure that safeguarding children practice is consistent with the Local Safeguarding Children Partnership procedures and organisational procedures.
- Ensure that practitioners fully understand their roles, and responsibilities and the scope of their professional discretion and authority.
- To provide reflective space to analyse ongoing work and specific incidents, to assess risk and need and to provide an important check and balance on decision making and planning.

### 19.2 Professional development

- Ensure that professional development needs, including safeguarding practice are considered and supported.

### 19.3 Personal support

- To provide reflective space for the supervisee to discuss and work through the personal impact of their role and responsibilities. This should include support to address the emotional impact of the work where required.

Good supervision involves a balance between all three elements, not always within one session, but certainly over the entire supervision process.

## 20 Safe working practice

Our staff can be victims of sexual violence and sexual harassment. Arrangements are in place to protect our staff and other adults from such abuse, including clear reporting and support mechanisms.

Staff and other adults are required to work within clear Guidelines on Safe Working Practice, this Child Protection Policy and procedures, the Code of Conduct and the ICT Staff Acceptable Use Agreement. The latter includes amongst other things, staff/pupil relationships and communications, including the use of social media.

A child may make an allegation against a member of staff or other adult in situations where they feel vulnerable or where they perceive there to be a possible risk to their welfare. As such, all Trust staff and other adults must take care not to place themselves in a vulnerable position regarding child protection or potential allegations. For example, it is always advisable for interviews or work with individual children or parents to be conducted in view of other adults.

It is not realistic to suggest that staff should never touch pupils and they, and other staff in schools, have the right to use reasonable force to control or restrain pupils in certain circumstances. 'Reasonable' in these circumstances means 'using no more force than is needed'. Although there are circumstances when it is appropriate for staff in schools to use reasonable force, physical intervention will only be used when the child is endangering him/herself or others and such events will be recorded and signed by a witness. Staff and other adults in each school are aware of the Behaviour Policy and procedures, and any physical interventions must be in line with that agreed policy and procedure in which appropriate training will be provided. Full advice and guidance can be found in the DfE document [Use of Reasonable Force in schools. Information about how to support children with SEND and mental health difficulties who are at risk of restrictive intervention](#) can be found in 'Reducing the need for restraint and restrictive intervention'.

## 21 Online safety

The use of new technologies presents challenges and risks to children both inside and outside of school and technology has become a significant component of many safeguarding issues. Child sexual exploitation; radicalisation; sexual predation; online hoaxes and challenges – technology often provides the platform that facilitates harm.

Trust schools will ensure a comprehensive curriculum response to enable all pupils to learn about and manage the associated risks effectively and will support parents and the school community (including all members of staff) to become aware and alert to the needs of keeping children safe online. Reference will be made to the DfE advice [Teaching online safety in schools](#). The breadth of issues classified within online safety is considerable and ever evolving but can be categorised into four areas of risk: **content; contact; conduct and commerce**. Detailed information on these risk areas can be found in the Trust's Online Safety Policy and procedures.

Children and young people can be exploited and suffer bullying through their use of technology e.g., the internet, mobile phones and social networking sites. To minimise the risks to our children we will ensure that we have appropriate and reasonable security filters and monitoring systems in place. These filters and systems will, in part, be informed by the risk assessment required by the 'Prevent Duty'.

Where it is suspected that a child is at risk from internet abuse e.g., being subjected to harmful online interaction with other users, peer pressure, commercial advertising such as online gambling and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes, we will report our concerns to the appropriate agency.

Staff are particularly aware of the professional risks associated with the use of electronic communication (email; mobile phones; texting; social network sites) and must familiarise

themselves with advice and professional expectations outlined in the school Code of Conduct for staff and other adults and the Online Safety Acceptable Use Agreement.

When using digital images, staff will inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. Pupils will be taught to recognise the risks attached to publishing their own images on the internet e.g., on social networking sites. Staff are permitted to take digital/video images to support educational aims but must follow the school Policy and procedures in relation to the production, sharing, distribution and publication of those images.

In relation to pupils and their use of mobile devices on the school site, reference should be made to the Online Safety Policy and procedures which is available via the setting's server (staff shared area or similar).

## 22 Managing online filtering and monitoring

The trust recognise that we must provide a safe environment for children and others to learn and work, including when online. The Trust's board of Directors have an overall strategic responsibility for filtering and monitoring and have delegated the management of this to the CEO who has a role in ensuring that the DfE filtering and monitoring standards are being met. Others in Trust schools, particularly SLT are responsible for procuring filtering and monitoring systems, documenting decisions on what is blocked or allowed and why, reviewing the effectiveness of the provision and overseeing reports. SLT are also responsible for ensuring that **all** staff understand their role; are appropriately trained; follow policies, processes and procedures and act on reports and concerns in a timely manner.

To achieve the above, we will work closely with our IT providers to meet the needs of the whole Trust. Further guidance and information on how the Trust are meeting the DfE Filtering and monitoring standards can be found in the Online Safety Policy and Procedures, which is available via the setting's server (staff shared area or similar) and on request to parents.

Children and young people can be exploited and suffer bullying through their use of technology e.g., the internet, mobile phones and social networking sites. To minimise the risks to our children we will ensure that, as outlined above, we have appropriate and reasonable security filters and monitoring systems in place. These filters and systems will, in part, be informed by our 'Prevent' risk assessment and a further assessment of risks, which will consider the number of and age range of the pupils, those who are potentially at greater risk of harm and how often they access the IT system along with the proportionality of costs versus safeguarding risks.

## 23 Cyber crime

The Trust has a cyber security and resilience strategy in place along with a cyber-response plan to ensure that procedures and processes are in place to, at the outset, reduce the risk of a cyber-attack on the Trust's IT systems and to manage any adverse breaches of the IT systems. A copy of this strategy and plan will be made available on request. – In progress

## 24 Complaints

The Trust has a Complaints Procedure available to parents, pupils and staff who wish to report concerns. This is published on the Trust and school websites.

All reported complaints/concerns will be taken seriously and considered within the relevant and appropriate process. Anything that constitutes a concern or allegation against a member of staff or volunteer will be dealt with under the specific procedures for managing allegations against staff, supply staff, volunteers, contractors and external providers using the school premises for the purposes of running activities for children. See Section 9.

## 25 Safer recruitment, selection, pre-employment vetting and ongoing vigilance

The Trust aims to create a culture of safe recruitment by adopting recruitment procedures that help deter, reject or identify people who might abuse or be a risk to the safety or welfare of children. The Board of Directors, CEO and Local Governing Bodies will act reasonably in making decisions about the suitability of prospective employees, supply staff, volunteers, contractors and external providers using the school premises for the purposes of running activities for children, based on checks and evidence including criminal record checks (DBS checks), barred list checks, Childcare Disqualification declaration (where relevant) and, in the case of teaching staff, prohibition checks together with references and interview information.

In line with the Scheme of Delegation the CEO in partnership with the Local Governing Body and School Leadership Team are responsible for ensuring that the school follows safe recruitment processes outlined within the DfE document '[Keeping Children Safe in Education](#)' and in the Safer Recruitment Policy and procedures, including accurate maintenance of the Single Central Record; and an application, vetting and recruitment process which places safeguarding at its centre, regardless of employee or voluntary role.

Across the Trust all staff will ensure that there are processes in place for continuous vigilance, maintaining an environment that deters and prevents abuse and challenges inappropriate behaviour so that staff feel comfortable to discuss matters both within and outside of the workplace which may have implications for the safeguarding of children. We will also ensure that staff understand the process and procedures to follow if they have a safeguarding concern about another staff member.

Each Local Governing Body will ensure that at least one person on any appointment panel has undertaken safer recruitment training and that the training is updated as necessary.

### 25.1 Childcare Act 2006/Childcare (Disqualification) and Childcare (Early Years Provision Free of Charge) (Extended Entitlement) (Amendments) Regulations 2018

The above legislation applies mainly to primary schools and those settings with early years pupils. However, as a basic principle, the CEO, LGB members and senior leaders recognise that we must endeavour to ensure that we create a culture and environment where staff feel comfortable, where it is appropriate, to discuss matters outside of work, which may have implications for the safeguarding of children in the workplace.

The CEO, LGB Members and senior leaders would expect staff to discuss with them any situation where their relationships and associations both within and outside of the workplace (including online) may have implications for the safeguarding of children in their school.

These discussions can assist the CEO, LGB Members and senior leaders in safeguarding their employees' welfare and contribute to their duty of care towards their staff. Where appropriate, it will help managers identify whether arrangements are needed to support these staff. These discussions can also help with the management of children's safety, providing information that will help them consider whether there are measures that need to be put in place to safeguard children (e.g., by putting arrangements in place to stop or restrict a person known to or living with a member of staff coming into school where a potential risk to children has been identified).

The legislation places separate and additional requirements on schools. At the point that an individual is convicted of, or cautioned for, a criminal offence of a specified type or category, or where they meet other disqualification criteria set out in the Regulations, the Act and Regulations disqualify staff from:

- providing early years childcare or later years childcare to children who have not attained the age of eight; or
- being directly concerned in the management of that childcare.

To ensure that those working in every academy in the Trust are not disqualified from working with the relevant pupils, the Board of Directors require that, prior to appointment, an individual completes a self-declaration form in accordance with the DfE statutory guidance '[Disqualification under the Childcare Act 2006](#)'.

Further information can be found in the Trust Safe Recruitment, Selection and Pre-Employment Vetting Policy and procedures.

## **26 Referral to the Disclosure and Barring Service (DBS)**

The role of the DBS is to help prevent unsuitable people from working with children and vulnerable adults.

The Board of Directors has a legal duty to make a referral to the DBS where they remove an individual from regulated activity (or would have removed an individual had they not left) and they believe the individual has:

- engaged in relevant conduct in relation to children and/or adults; and/or,
- satisfied the harm test<sup>3</sup> in relation to children and/or vulnerable adults; and/or,
- been cautioned or convicted of a relevant (automatic barring either with or without the right to make representations) offence.

Referrals will be made as soon as possible when an individual is removed from regulated activity. [How to refer to the DBS](#). The legal duty to refer applies equally in circumstances where an individual is redeployed to another area of work that is not regulated activity, they are suspended, dismissed or when they have resigned.

The advice of the LADO can also be sought if there is uncertainty as to whether a referral should be made or for example there are concerns about the staff member's conduct outside of work which may raise concerns about their suitability to work with children. Further guidance can be found on the SCP website [How to refer a child](#) or [Allegations against staff or volunteers/LADO](#).

## **27 Referral to Ofsted / Local Child Protection Agency**

There is no legal requirement to notify Ofsted of any serious accidents, injuries or deaths that occur in relation to the childcare provided when the Early Years Provision is NOT registered separately from the school and is therefore not on the Early Years Register. This applies to Early Years settings within the Good Shepherd Trust, all of which fall into this category.

## **28 The use of school premises by other organisations**

Where services or activities are provided separately by another provider using the school premises, the Headteacher and Local Governing Body will seek assurance that the provider concerned has appropriate Policies and procedures in place regarding safeguarding children and child protection (including inspecting these as needed) and that other providers have ensured that relevant safeguarding checks have been made in respect of staff and volunteers. This applies regardless of whether the children who attend any of these services or activities are children on the school roll or not. We will also ensure that safeguarding requirements are included in any lease or hire agreement as a condition of use and occupation of the premises. We will ensure that there are arrangements in place for the provider to liaise with the school on safeguarding and child protection matters where appropriate. The DfE non-statutory guidance on [Keeping children safe in out-of-school settings](#) details the safeguarding arrangements that we expect these providers to have in place.

Where we receive an allegation relating to an incident that happened when an individual or organisation was using the school premises for the purposes of running activities for children, we will follow the allegations procedures including, where necessary, informing the LADO.

---

<sup>3</sup> The harm test is explained on the Disclosure and Barring service website on GOV.UK

The Local Governing Body/Headteacher will take appropriate action to ensure that the school is not hired out or otherwise let to external providers that use the premises to deliver messages of, or support for, extremist ideologies or radicalisation.

If assurance is not achieved, an application to use premises may be refused. See **School Hire Arrangements** for further information where applicable.

## 29 Safety and suitability of premises, environment and equipment

Each Trust school will ensure that premises are fit for purpose and suitable for the age of children cared for and the activities provided on the premises. Spaces, furniture, equipment and toys, must be safe for children to use and premises must be secure. We have, and implement, a Health and Safety Policy and procedures, which include identifying, reporting and dealing with accidents, hazards and faulty equipment.

All reasonable steps are taken to ensure staff, children and others affected by what we do are not exposed to risks and are able to demonstrate how we are managing risks. Risk Assessments inform staff practice and demonstrate how we are managing risks.

We will only release children into the care of individuals who have been notified to us by the parent and will ensure that children do not leave the premises unsupervised. We will take all reasonable steps to prevent unauthorised persons entering the premises and have an agreed procedure for checking the identity of visitors. Visitors are expected to sign in and out via the office visitor's log and to display a visitor badge whilst on school site. Any individual who is not known or identifiable should be challenged for clarification and reassurance. A template visitor notice and template code of conduct for visitors is available from the Member's area of the Trust website.

Our schools will not accept the behaviour of any individual (parent or other) that threatens school security or leads others (child or adult) to feel unsafe. Such behaviour will be treated as a serious concern and may result in a decision to refuse access for that individual to the school site. Please refer to the DfES (now DfE) document '[A Legal Toolkit for Schools](#)' and DfE non-statutory guidance '[Controlling access to school premises](#)'.

## 30 Summary

All staff will follow the procedures set out by the Local Safeguarding Children Partnership (SCP) and take account of guidance issued by the Department for Education to promote the well-being and safeguarding of our pupils. These procedures and guidance have been revised to take account of the statutory guidance '[Working Together to Safeguard Children](#)'.

## 31 Monitoring and review

Safeguarding including child protection is a regular agenda item at full Local Governing Body meetings; Sub-Committee meetings and staff meetings giving the DSL the opportunity to update on staff/ LGB Member training and any other relevant issues or changes.

The Trust has a responsibility to monitor safeguarding carefully. Schools are required to report incidents that are referred to the Local Safeguarding Partnership and the LADO on a termly basis, including where no such referrals are made. This and the safeguarding element of the Headteachers' and School Improvement consultants' reports are considered at Board meetings.

In addition, schools will use the agreed template for the internal annual safeguarding audit annually, the template for this audit and action planning is available from the member's area of the Trust website. The information from the school annual audits is then used to produce a Trust wide annual safeguarding report.
